VICTORIA GIRL WELCOMES BACK HERO—Sole survivor of torpedoed H.M.C.S. St. Croix, Stoker William Fisher was welcomed back to Canada by the Prime Minister, the Navy Minister and senior naval officers. But the sincerest and most enthusiastic handshake came from Wren Jill Humphreys of Victoria, granddaughter of the late Hon. James Dunsmuir, lieutenant-governor of B.C., for Jill knows from personal experience the perils of U-boat attack. In England when her mother, Mrs. Selden Humphreys, was killed during the "blitz," Jill was on her way back to Canada when her ship was torpedoed. She was uninjured. She is now a writer at navy headquarters, Ottawa.

Big Subscription By Province Spurs Loan Drive

Spurred to enthusiasm by the splendid subscription of \$6,000,000 from the Provincial Treasury announced by Premier John Hart Saturday, canvassers of the Fifth Victory Loan campaign set off early this morning eager to win, and oversubscribe, their respective quotas.

One hundred and fifty canvassers in Greater Victoria, including for the first time two women salesmen, today started the drive by which it is hoped to raise \$6,725,000 in Victoria city and suburbs. All Canada will open its doors to the workers of the Victory Loan campaign—housewives, business offices, factories, professional services, and men and women in the forces—none will be overlooked. The Dominion objective, greatest in history, is \$1,200,000,000.

In announcing the investment of \$2,000,000 from the Workmen's Compensation Fund, and a further \$4,000,000 from the government, Premier Hart warned that canvassers must not be met with complacency on the part of the people.

"Surely we can visualize the sacrifice being made by our boys overseas," he said, "and assure them of the necessary supplies and weapons."

With 60 canvassers for Victoria city district, organizer J. D. Munro expects to reach the urban quota of \$4,200,000. Both Oak Bay and Saanich have equal objectives of \$950,000, the former under George Treleven, the latter under Maj. Geo. Yardley. With two suborganizers, Maj. Yardley also has jurisdiction over Esquimalt area with a quota of \$625,000.

R. W. Mayhew, addressing city loan workers before the canvass started, said in reference to the recent good news on the war fronts, "we are not going to pull in our oars now, nor shall we pull any punches until the war is won. Men, money and munitions—that is what we have been asked for. Canada must see she does her part as comrades-in-arms to the boys at the front."

Victoria is already showing her initiative in the new Victory Loan drive. One business house has already won the honor flag for 100 per cent of employees contributing, the Fishermen's Reserve has topped its quota, individual cheques are already being sent to headquarters at 737 Fort Street, Victoria is in the lead to "Speed the Victory!"

British, Yanks Occupy Towns North of River

By NOLAND NORGARD
ALLIED HEADQUARTERS, ALGIERS (AP)—The British 5th Army in a slashing give-and-take battle has driven beyond the Volturno and "firmly occupied" the towns of Cancello, Ruviano and Nerrone. British 8th Army patrols are stabbing westward into the Apennine backbone toward Rome, Allied headquarters announced today.

Important new Allied landings of men and material in recent days have been made on the Italian mainland as a part of the steady reinforcement of Gen. Dwight D. Eisenhower's forces, it was disclosed.

From both the 5th and 8th Army fronts came reports of numerous fires in the enemy rear areas. This pointed to the possibility the Germans were destroying supply dumps preparatory to a general withdrawal, although there was nothing else to indicate further Allied advances toward the Italian capital from any direction would be made except in the face of the most stubborn opposition.

British troops of the 5th Army occupied Cancello, a former important Axis airbase eight miles inland and on the north bank of the Volturno River, after beating back a massive German counter-attack in the course of an advance from the sea.

Yanks Win 2 Towns After Mixed Battle

U.S. troops captured the towns of Nerrone and Ruviano in the high ground dominating the surrounding lowlands after fierce "merry-go-round" fighting in which strong formations from each side repeatedly stabbed deep into the opposing lines, creating a fluid situation over an area five or six miles deep in which units frequently became isolated.

It was in the Cancello sector that British amphibious forces had landed along the gulf of Gaeta to flank the German anchor at the mouth of the Volturno.

The U.S. troops beat off three strong German counterthrusts before battling their way into Nerrone, a mountain stronghold three miles north of the river and 22 miles inland.

Ruviano, another valuable position in high ground in the strategic elbow of the Volturno where it turns northward, cemented Allied control of an area where the Allies earlier had seized Calzasso and Amorosi on opposite sides of the river. It also was captured after a sharp engagement.

On the 8th Army front where the Canadian 1st Division is operating with British troops, fighting raged in the streets of Montecellone when British patrols entered and found it heavily garrisoned by Germans. The British patrols broke through toward the main British lines only after a violent encounter. Montecellone is 10 miles southwest of Termoli on the Adriatic coast and four miles west of Guglionesi, the last reported limit of the British advance in that sector.

The headquarters communique said 8th Army patrols were maintaining contact with the enemy in the drive west of the Termoli-Vinchiaturo road, and field reports said enemy resistance was increasing in intensity all along that front.

Mid-East Air Fleet Plans Big Drive

ALLIED HEADQUARTERS, ALGIERS (AP)—The powerful bomber fleets of the Allied air forces which swept all before them in the Mediterranean are preparing a great offensive against Germany.

An official announcement from air force headquarters today said that "within a short time the Allies will be in a position to hit vital military objectives in Germany, either from England or Italy, taking advantage of the most favorable weather in each case."

At the same time the strategic air force will be ready to hammer Bulgaria, Rumania and Hungary out of the war in the same manner that Italy was beaten to her knees.

Eden, Hull Arrive In Moscow

LONDON (CP)—The Moscow radio announced tonight that U.S. Secretary of State Hull and British Foreign Secretary Anthony Eden had arrived in Moscow for the tri-power conference.

5,000 Poles Held

STOCKHOLM (AP)—The German Gestapo has arrested 5,000 more Poles in an effort to crush Polish resistance in Warsaw, the secret Polish underground radio Swit said today, and has threatened to execute two Poles for every German shot.

Militia Rangers To Be Reduced

VANCOUVER (CP)—The Sun in a newspaper story this afternoon says it has learned that "partial disbandment of the Pacific Coast Militia Rangers is being considered at Ottawa."

"The planned reduction would, as an initial move, slash the force of trained bush-fighters by 4,500," it says.

"Some of the 130 ranger companies whose 14,500 woodsmen guard settlements between Alaska and Washington State would be wiped out. Others would undergo a drastic whittling-down in strength."

Nazi Atrocity Probed

ON THE VOLTURNO RIVER FRONT (AP)—United States authorities are investigating reports that the Germans executed 40 Italian civilians, including women and children, while, or shortly after, the Nazis evacuated Calzasso, a few miles north of the Volturno.

Russians Recapture 223 More Villages

LONDON (CP)—Russian troops are pouring through a widening hole inside the Dnieper River loop behind Dnepropetrovsk, advancing up to 4.3 miles today and overran 23 more villages, Moscow announced tonight.

In Melitopol, far to the southeast, the Red Army still fought stubborn German street fighters for the sixth day in that gateway to the Crimea, said a communique broadcast by Moscow and recorded by the Soviet monitor here.

Boeings Retool

VANCOUVER (CP)—Boeing Aircraft of Canada's Plant No. 2 is being retooled for production of an improved Avro Anson training plane, it was learned today.

The Avro Anson, used as a trainer for Mosquito bomber pilots, has been redesigned for a heavier, faster plane to bring it more into line with fighter-bombers.

DENVER, Col.—Six German prisoners of war who escaped Sunday night from the Trinidad, Colo., war prisoner internment camp were being hunted today, the Federal Bureau of Investigation said.

Fighting Rommel

CAIRO (AP)—Gen. Draja Mihailovic's Yugoslav troops, relatively inactive since the Nazis began occupying garrisons formerly held by Italian troops, have taken the offensive and are fighting bitter battles with Marshal Erwin Rommel's forces on three fronts, Yugoslav government leaders said today.

Alleged Spy Charged

SAN FRANCISCO (AP)—Guenther Maria Rummrich, 32, described by the F.B.I. as a former espionage agent for the Nazis, today was ordered removed to Seattle to answer an indictment charging that he furnished false information in applying for a coastguard pass, and that he had cashed worthless cheques there.

Snow at the Soo

SAULT STE. MARIE, Ont. (CP)—Sault Ste. Marie and district dug out from a 12.4-inch blanket of snow today after the heaviest autumn snowfall since November, 1914. The snow fell since Saturday night, but highway traffic was maintained both in the city and surrounding area.

To Get Coupons Nov. 1

W. F. Kennedy, B.C. liquor commissioner, said today that liquor coupons which will go into use in this province Nov. 1 may not be available to the public before that date.

Negro Prosecutor Charges Marigny, Says He Slew for Revenge and Gain

By E. V. W. JONES

NASSAU, Bahamas (AP)—Special Prosecutor A. F. Adderley told a Bahamas Supreme Court jury today that the prosecution charges Alfred De Marigny with conceiving the murder of wealthy Sir Harry Oakes for three reasons: Revenge, satisfaction and gain.

He declared the handsome 35-year-old defendant had taken Sir Harry's eldest daughter, Nancy, now 19 years old, on a trip to California before they were married last year.

In the tense atmosphere of the small courtroom where Nassau's most sensational criminal trial had started an hour earlier, the negro prosecutor outlined the evidence with which he seeks to prove that De Marigny beat his father-in-law and left him to die on a flaming bed.

Speaking from the caged prisoners' dock, the debonair defendant had uttered a firm "not guilty" to the charge against him. He then peered through the wooden bars while the jury was seated with a swiftness which seemed remarkable in a courtroom where the centuries-old pomp of British justice prevailed.

"You will be told of a trip the

accused made to California with Nancy before their marriage," Adderley told the jury.

"Lady Eunice Oakes, the widow, will tell you that the family tried to make the best of a bad bargain."

He told of the finding of the body of Sir Harry last July 8 in a bedroom at the Oakes' seaside estate, Westbourne. There had been four hard blows on the head.

"Any of the blows would have killed, but the murderer was filled with hate and malice that he struck again and again, then burned the body," said the prosecutor.

"Such a deed could only originate in a depraved and degenerate mind."

Reiterating testimony of prosecution witnesses at the preliminary hearing, Adderley told of enmity between Oakes and De Marigny.

"The Crown charges," he said, "that De Marigny, resenting Oakes' failure to accept him as a member of the family and because of a financial strain, conceived the murder for three reasons: For revenge, for satisfaction and for gain."

Crashed Aircraft Believed American

No positive identification of the aircraft which crashed and exploded in the waters of Cordova Bay Saturday afternoon has been made yet.

No R.C.A.F. or R.A.F. planes were reported missing over the weekend and it is assumed the crashed craft, which exploded and sank when it hit the water, is identical with a "small naval plane" referred to in an Associated Press dispatch as missing from "a northwest naval air base."

The Associated Press dispatch quoted an announcement by the U.S. 13th Naval District.

The crash Saturday was seen by scores in the vicinity of the beach. Rescue boats sped to the scene but found only fragments of the plane and no trace of any occupants.

Arrested By Gestapo

LONDON (CP)—The Moscow radio said today that the family of Nazi Lt. Gen. Schmidt, reported to have committed suicide on the Russian battlefield following the defeat of his tank division, has been arrested by the Gestapo and sent to a concentration camp.

\$5,000,000 From Ontario

TORONTO (CP)—Five million dollars of the Fifth Victory Loan will be subscribed by the Ontario government, Premier Drew announced today, addressing a rally of provincial civil servants inaugurating the loan campaign. He said bonds of this issue would in future be accepted at par by the government in payment of any obligation, including succession duties.

Broda Faced Arrest

TORONTO (CP)—Col. R. H. Davidson, assistant national mobilization registrar for the Toronto district, said today his office had been informed Turk Broda was planning to leave Toronto before his military call-up notice expired last Thursday night, and if the former Toronto Maple Leafs' goalie hadn't been taken from the Toronto-Montreal train a few minutes before that time "he would definitely have been arrested the following morning as a draft evader."

"It was my duty to see Broda did not beat his draft," Col. Davidson said.

LOAFING LARRY

He really should be cutting the grass but he puts it off from day to day. When he does get at it, it will be a tougher job. It's like the war. It looks as if we finally have a bit of an edge over our enemies, but we'd better not loaf on the job or the task will take longer—cost more lives. And there's a lot of jobs to be done. The first is to clean up the Fifth Victory Loan. The fighting forces need that money—for more supplies. Don't be a Loafing Larry. Figure out how much of the loan you can handle and get it over with now.

Schweinfurt Plant Not Now Operating

LONDON (AP)—Reconnaissance photographs show the entire works of the Schweinfurt ball and roller bearing plant, devastated by U.S. bombers last Thursday, are "now inactive," it was announced officially here.

At the same time a dispatch from Stockholm, quoted a Swedish industrial expert as saying the damage inflicted was so severe that two years would be needed to put the vital war plant back into full production.

"It may be possible for the Germans eventually to restore 25 per cent of normal productive capacity, but even that would require some time," said Brig. Gen. Frederick L. Anderson, commander of the U.S. 8th Air Force bomber command.

His statement followed a detailed study of photographs which disclosed "even more extensive damage than was first estimated."

The Swedish dispatch, based on an interview with the newspaper Nya Dagligt Allehanda, quoted the Swedish industrial expert, who was described as having an intimate knowledge of the German industrial situation, as saying that only one major ball bearing producer was left in Germany—the SWF factory near Berlin.

Hold 15 Canadians

GREENVILLE, Me. (AP)—Fifteen Canadian aliens were in custody of U.S. border officials today, having been picked up at Seven Island near the Canadian border Sunday. The group was ordered taken to Bangor for further action.

Soviet Men, Guns Pour Through Gaps In Dnieper Line

LONDON (CP)—Soviet men and guns are pouring through a widening hole deep inside the Dnieper River loop behind Dnepropetrovsk, threatening to flank hundreds of thousands of Germans to the east as well as at Melitopol and in the Crimea, a Reuters dispatch from Moscow said today.

The correspondent said the Nazis were rushing up reinforcements, including units from all parts of Europe, in an effort to stem the Soviet forces which broke through along a 28-mile front and captured five German strong points after two days of heavy fighting between Kremenchug and Dnepropetrovsk. A wedge 15 miles deep had been driven into German defenses, a Russian communique said.

The communique also announced the Red Army had made a fourth major crossing of the Dnieper, this time below Gomel, charging ahead six miles through the heavily defended German lines.

As fighting raged in the streets of Melitopol for the sixth day, the Nazis themselves suggested another major retreat from the low Dnieper, a German high command communique speaking of a "big detaching movement" on the eastern front.

POPELSTOYEV FALLS

Among five towns whose capture was announced by the Russians in the big breakthrough, was Popelstoyev, 60 miles west of Dnepropetrovsk and 30 miles southeast of Kremenchug, and only 14 miles from the trunk railway connecting Dnepropetrovsk and Kiev.

The crossing in the Loev sector below Gomel as Red Army troops were reported battling in the suburbs of the White Russian citadel. The new push was made with the apparent objective of severing Gomel's rail link with Poland in the west.

In the Kiev sector, meanwhile, the Russians reported the capture of strategic heights in the drive for the Ukrainian capital.

Chlorinated Water Killed 240,000 Fish

VANCOUVER (CP)—Inspector F. R. Butler of the B.C. game branch said today that Vancouver's chlorinated water was the cause of the death of 240,000 baby trout Oct. 7 and 8 in Stanley Park hatcheries.

Inspector Butler said the University of B.C. reported the chlorine and ammonia used in Vancouver's water system combined to form a toxic called "chloramine."

Until some method of taking the chlorine and ammonia out of the water can be found, no more fish will be hatched at Stanley Park, he said.

The fingerling trout were worth about \$1,250.

Germans Forced to Triple Guards At Camps of Slave Laborers

By CHARLES S. FOLTZ

MADRID (AP)—As a result of recent developments on both the military and political fronts, the 12,000,000 foreign workers who the Germans boasted in July were "working contentedly" in the Reich now bid fair to become one of the Nazis' biggest problems.

Apparently disturbed by the possible effect which the trend of events in the Mediterranean might have on these imported workers, the Germans are said to have deprived them of the last vestiges of "reasonable freedom" they were promised originally.

The French were a problem even before the downfall of Mussolini and Italy's subsequent withdrawal from Axis partnership.

With Italy's declaration of war on Germany the great mass of Italian workers within the Reich also definitely warrant the Gestapo's suspicions that they may be far from content. So do tens of thousands of disarmed Italian soldiers who were sent to Germany, where they were given the choice of working or fighting.

U.S.-Canadians To Board Gripsholm

MORMUGAO, Portuguese India, (AP)—The U.S. consulate announced today that the exchange of Canadian, U.S. and Japanese nationals aboard the liners Taka Maru and Gripsholm will take place tomorrow beginning at 8 a.m. (9 p.m. P.D.T. today).

The announcement was made by the consulate after a conference with Japanese authorities while the expectant repatriates lined the rails of the two vessels eagerly awaiting their transfer. It was explained the Japanese had asked a day's delay in the exchange to enable them to finish arrangements of accommodating their nationals.

Those aboard the Taka Maru—1,500 United States, Canadian and Latin-American nationals—were permitted ashore for a few minutes while being registered and assigned berths on the Gripsholm.

The Gripsholm was brought into her dock Saturday, the Taka Maru the day before.

Berlin Says Hull, Eden in Teheran

LONDON (AP)—The Berlin radio today said Cordell Hull, U.S. Secretary of State, had arrived in Teheran, Iran, en route to the tripartite conference in Moscow.

Anthony Eden, British Foreign Secretary, and W. Averell Harriman, U.S. Ambassador to Russia, also were in Teheran, bound for Moscow, the German broadcast said. It attributed its information to the "Teheran radio."

To these great, dissatisfied and unruly masses of French and Italian labor now may be added the thousands of imported workers from Croatia, Serbia and other parts of the Balkans—as well as a small contingent of Portuguese labor volunteers.

Unrest in all these people may conceivably be inspired by recent events, and reliable reports from Germany indicate that the Nazis—taking no chances—have tripled guards around the camps where both voluntary and involuntary workers from the Mediterranean countries are quartered.

Heinrich Himmler, Gestapo chieftain, is even reported to have appealed to Hitler to move some of the most suspicious foreign laborers out of Germany "before it is too late" and the workers "poison the minds of good Germans."

Within the last month there is said to have been a striking increase of sabotage within Germany which the Gestapo traced back directly or indirectly to foreign workers.

Statistics Clerks Want More Pay

OTTAWA (CP)—Dominion Bureau of Statistics clerks were at work today, with a threatened strike averted and the promise that their demand for immediate promotion to grade 2 status would be discussed at a Treasury Board meeting this afternoon.

Saturday 61 clerks—four men and the remainder girls—staged a protest march to civil service commission and trade and commerce department offices demanding the promotions be granted at once.

This morning, following a meeting with Herbert Marshall, assistant Dominion statistician, the clerks agreed to continue at work.

In all, some 175 clerks in the census division of the bureau would be affected by the grade 2 ruling which is sought.

The treasury board had granted an increase to clerks with 18 months' service, raising remuneration from the \$65 granted grade 1 employees to \$70 a month.

An examination was held for the purpose of establishing an eligible list for grade 2 positions at \$90 a month.

These measures did not satisfy the grade 1 census workers.

Today's WAR NEWS Analysis

By DE WITT MACKENZIE
Associated Press War Analyst

A general view of the crucial struggle on the Russian front gives the impression the Hitlerites are on the verge of another great withdrawal of their line in face of the continuing Soviet onslaught.

As a matter of fact, an unexplained German official reference to a "big detaching movement" of Nazi forces invites speculation whether a fresh retreat isn't already in its initial stages.

This whole vast front of more than 1,000 miles is in a state of volcanic eruption at half a dozen strategic points. At the moment, however, the crisis is pivoting in the south, and the battle is fierce.

The Russians have made a major breach in the German front line north of Dnepropetrovsk on the bend of the great river, and are threatening to surround big Hitlerite forces to the south. Also in danger of being cut off is the Nazi-occupied Crimea.

"HOT POTATO"
The Crimea has a special significance beyond the fact that it's an important part of the general engagement. The big peninsula, now a hot potato in Hitler's hands, is connected with the mainland to the north by the spindly isthmus of Perekop. The hard-driving Russians to the north are fighting in

the city of Melitopol, which is the right-wing anchor of Hitler's line and is 100 miles east of the Perekop isthmus.

That isthmus provides the only land avenue of escape for something like 100,000 Nazi troops who are cooped up on the Crimea. It is reported in Stockholm the Fuehrer has ordered these forces to "defend, if necessary to the last man," this peninsula which, as things now stand, is the key to domination of the Black Sea, which gives Russia her only direct water route to the Mediterranean. The Soviet must control the Black Sea not only for this reason but also to maintain her influence in the Balkans and the Middle East.

RECLAIM BESSARABIA

Thus, as the signs now read, when this war is finished we shall see the Muscovite strengthen their great naval base at Sevastopol on the Crimea, reclaim the province of Bessarabia, now part of Rumania, take control of the mouths of the Danube, and quite likely strategic ports in Rumania and Bulgaria. The status of the Dardanelles also will be an important issue.

Will the Nazis in the Crimea make a suicide stand as Hitler is said to have ordered? It looks like a futile sort of a gesture, which might act merely as a delaying action against the Russian forces.

If Hitler's right wing collapses it will mean the second big retreat along the whole line is under way.

R.A.F. Hits Berlin Targets, Canadians Blast Locomotives

LONDON (AP)—R.A.F. Mosquitoes bombed targets in Berlin and western Germany without loss Sunday night while fighters attacked airfields and communications in occupied territory, the Air Ministry announced today.

R.C.A.F. Mosquitoes and Mustangs were active over northern France, damaging seven locomotives and flying intruder patrols. R.C.A.F. Wellington bombers laid mines in enemy waters. There were no Canadian losses.

Indicating the Allied air offensive again was going into high gear after a lull since last Thursday's attack on Schweinfurt, a large force of bombers also crossed the Channel toward the continent this morning. Fighters escorted them.

Berlin last was raided Oct. 9—also by Mosquitoes.

Other bombers Sunday night laid mines in enemy waters, the communiqué said, and fighters attacked shipping off the Dutch coast as well as enemy airfields and railway targets.

Several bombs were dropped in a residential district of the London Metropolitan area, killing at least 11 persons and demolishing many homes, leaving at least 30 families homeless. Several other persons were seriously injured. A school, a church and a number of houses were damaged extensively in another district. The alert lasted an hour.

Bombs also were dropped by low-flying fighter-bombers near

a village, but the only casualties were several chickens.

About 15 German planes stabbed at Britain Sunday night, hitting at points in East Anglia and southeast England and penetrating to the London area.

The communiqué said bombs caused some fatalities and that one of the intruders was destroyed.

In the attacks on targets in Nazi-occupied territory, Mosquitoes, manned by Canadian crews, damaged seven locomotives in moonlight attacks in northern France. An R.A.F. squadron leader flying a Hurricane sank a tug and at least one barge off the Dutch coast.

High scorers among the Canadians was PO. J. L. D. Armstrong of Westmount, Que., who shot up three locomotives, Sqdn. Ldr. M. W. Beveridge of Westmount, and FO. T. Thomson of Vancouver, each shot up one.

Members of this squadron commanded by Wing Cmdr. Paul Davoud of Kingston, Ont., turned their attention to transport targets because they found little activity over enemy fighter bases.

Five other locomotives and a railway bridge were hit by Whirlwind bombers in early morning sweeps over the Cherbourg peninsula.

B.C. East Indians Ask Stalin's Help

VANCOUVER (CP)—The Vancouver branch of the Khalsa Diwan Society of Canada has sent a cable at a cost of \$13.09 to Premier Stalin of Russia asking his intercession in India's troubles.

Signed by the secretary of the society, Singh Gill, the cable asked Stalin to seek release of Indian "political prisoners" and a negotiated settlement of India's political problems at the forthcoming tri-power conference of Britain, the United States and Russia.

ALLIED HEADQUARTERS, ALGIERS (AP)—Larry Allen, Associated Press war correspondent captured Sept. 13, 1942, while accompanying British warships in a raid on Tobruk, was among Allied war prisoners the Italians permitted to fall into the hands of the Germans, it has been learned.

Persons who saw Allen as recently as last Sept. 25, said he was then in a prison camp at Sulmona under German guard, and that he was scheduled to be taken into Germany the following day.

Canada Medal To Be Awarded For Meritorious Service

OTTAWA (CP)—Creation of the first distinctly Canadian decoration for merit—the Canada Medal—and its approval by the King is announced by Prime Minister King.

It may be won by any citizen, civilian or uniformed, in recognition of "meritorious service above and beyond the faithful performance of duties," and may be awarded citizens of other countries whom Canada may desire to honor.

A list of first recipients now is being considered and is expected to be announced in the near future.

The medal now approved and to be produced at the Royal Canadian Mint in Ottawa is a silver disc bearing on the obverse the crowned effigy of King George and on the reverse the arms of the Dominion and the word "Canada."

A bar attached to the mount of the medal bears the inscription

"merit" for English-speaking and "merite" for French-speaking recipients. The ribbon carries three stripes of equal width of red, white and red and is to be worn before war medals and immediately after the British Empire Medal.

The Prime Minister's brief announcement said the award will not confer "any individual precedence," but "the recipients will be entitled to add the letters 'C.M.' after their names, in the case of English-speaking recipients, and 'M. due C.' in the case of French-speaking recipients."

Decision to strike the first distinctive Canadian decoration was reached nearly a year ago and the work of preparation was placed in the hands of an inter-departmental committee headed by Dr. E. H. Coleman, Under-Secretary of State.

Agreement on design and on regulations governing the award was reached a short time ago and the final drafts submitted to the King for the approval which Mr. King announced.

In the case of armed service awards the recommendation will be by the minister concerned, and similarly in the case of government employees. Other awards are expected to be made on the recommendation of a committee to be set up, probably under the direction of the State Department.

So far as could be learned the award may be won in the most prosaic occupations since it does not essentially recognize gallantry in action or risk of life. The essential quality of the decoration, it is understood, is the recognition of outstandingly meritorious service by the citizen to his or her country or fellows, outside the call of ordinary duties.

Emergency Food For Famine Areas

NEW DELHI (CP)—Some relief was promised today for the starving thousands in India's famine areas through an announcement that the central government expects to have an emergency food distribution plan in operation by Nov. 1.

Sir J. P. Srivastava, civil defence and food member of the executive council, said the plan involved transfer of food grains from provinces with surpluses into the deficit areas.

Pandit Friday Nath Kunzru, nationalist and council state member in a statement after visiting the famine areas in the Calcutta, Madras and Burdwan districts of Bengal, said he saw "horror... well nigh indescribable."

"Dental seemed like a city of the dead," he said. "In the villages I visited the position was even worse than in Contal town... I saw corpses in every village I visited."

New India Viceroy Wavell Reaches Delhi

NEW DELHI (CP)—Field Marshal Viscount Wavell, Viceroy of India, his family and staff have arrived here.

Lord Wavell left England by plane Oct. 11. He was the first viceroy-designate ever to have flown to India.

"A BIG JOB"
By LOWELL BENNETT
Representing the Canadian Press AN AIR BASE IN SOUTHERN ENGLAND—A few moments before he took off on his journey to India to take up his new post as Viceroy, Field Marshal Viscount Wavell acknowledged he faced a "big job."

"But I shall do my best," he promised.

Lord Wavell, succeeding Lord Linlithgow as Viceroy, said in an interview: "As I understand it, my work is first to make India secure politically and productively materially to help support Admiral Lord Mountbatten's offensive. We must ensure that the country is a strong and safe base, above all else."

How To Make Good Cakes, With Less Butter, Sugar, Eggs

Orange Syrup Cake

Flavor the One-Egg Wonder Cake with 1 teaspoon grated orange rind. After baking, let cake cool ½ hour. Mix together ½ cup orange juice and ½ cup sugar, and spread on cake at intervals. 1 or 2 tablespoons at a time until all of syrup is used.

Delicious Cottage Pudding

Mix One-Egg Wonder Cake, using only 3 tablespoons shortening; omit egg and increase milk to 1 cup. Bake in greased 8 x 8 x 2 inch pan in moderate oven (350°F.) 50 to 60 minutes. Serve warm with fruit sauce or chocolate sauce.

Lunch Box Surprises

Mix One-Egg Wonder Cake. Divide butter in halves and make the two variations listed below. These can be baked in greased cup cake pans or in any 8 x 8 x 2 inch pan for cutting into squares. In either case, bake in moderate oven (375°F.) 18 minutes.

Chocolate Cakes. Melt 1 square Baker's Unsweetened Chocolate. Add to half batter; turn into greased pans; top with nuts.

Spice Cakes. Add 1 tablespoon molasses, ¼ teaspoon cinnamon, ½ teaspoon mace, and ¼ cup chopped raisins to half of batter. Blend.

Let's be realistic about this question of wartime cake-baking. In the first place, the ingredients you put into cakes (eggs, butter, sugar, flour) are just as good for you, just as nutritious, as if you used them in some other way. In the second place, the more restricted our menu, the more we need cake and desserts and other things to brighten it. There is a good supply of substantial food in Canada, even if there aren't all the kinds we have been used to. The only real problem is that of keeping the family's mind off shortages of certain foods by giving them variety. And cake helps to do that. And finally, there are ways of making really delicious cakes that economize on such scarce ingredients as butter and sugar and eggs. There are only two things you need to do—use a good recipe, and use Swans Down Cake Flour. This specially prepared flour gives good results even in the simplest, most economical recipe.

Jane Taylor Allen

The Flour is Important

It is important to remember one thing about these cakes made from simple, inexpensive recipes. You can't get the same results with ordinary flour.

Only soft, winter wheat, is used in Swans Down Cake Flour. Selected parts of this choice grain are ground by the Swans Down "Controlled Milling" process, then sifted and re-sifted through silk. The result is dependable Swans Down Cake Flour, 27 times as fine as ordinary flour.

SWANS DOWN CAKE FLOUR

To Save Sugar

Substitute corn syrup or honey for half the sugar. Use ½ cup sugar and ½ cup syrup. Decrease the milk by 3 tablespoons.

Tempting Cup Cakes

Make up recipe for One-Egg Wonder Cake. Bake in greased cup cake pans in moderate oven (375°F.) 20 minutes. Makes 2 dozen cup cakes.

Plan for a Good Morning

TOMORROW morning enjoy a bowlful of crisp, delicious Grape-Nuts Flakes. That's a grand plan for a good-natured morning every day.

Grape-Nuts Flakes have a malty-rich; sweet-as-a-nut flavor that starts you off with a great big smile! And their good nourishment keeps you grinning. These days you need the carbohydrates and proteins, iron and phosphorus, and other food essentials found in Grape-Nuts Flakes.

Order from your grocer. There are two sizes of the red and white package—regular size and giant economy size.

Fearful Of The Conference

BERLIN PUBLICISTS ARE BUSY IN-
forming the world of the aerial progress
of Mr. Eden and Mr. Hull toward Moscow.
Latest advice from the Nazi capital indi-
cates that the two statesmen are either rest-
ing in or have departed from Teheran.
Neither London nor Washington is report-
ing their movements. Nor is it necessary.
What is interesting, however, is the sudden
absence in German propaganda of the type
of wishful thinking based on the hope that
serious differences between Britain, the
United States and the Soviet Union will
hamper the conferees in their deliberations.
There will be plain speaking across the
conference table; all competent observers in the
Soviet capital and elsewhere expect this.
Only by clearing away the fog of suspicion
and mistrust will it be possible to reach
the common accord which the Germans so
obviously dread.

To worry Hitler and his crowd still fur-
ther as they contemplate the Moscow con-
ference are the steady westward advances
which the Russians are scoring all along
the Dnieper, the relentless pressure which
the Anglo-Canadian-American forces are
bringing to bear on the Nazis in Italy, the
increasingly effective contribution to the Al-
lied cause which the Patriot Army in Yugo-
slavia is making, and the devastating aerial
blows which General MacArthur's men are
raining on the Nipponese at various crucial
points in the Pacific. Nor does this repre-
sent the total content of the bitter cup being
pressed against Hitler's lips. Although lack-
ing official confirmation as this is written,
news from India suggests that Lord Louis
Mountbatten's campaign for the liberation
of Burma either is actually under way or is
ready for launching. In other words, the
men of Berlin and Tokyo have more than
enough to worry them on the battlefronts,
while their high-pressure propaganda to
prevent the Moscow conference has come
to naught.

Test Of Staying Power

ALTHOUGH MR. GRAHAM TOWERS IS
best known throughout the Dominion
as the governor of the Bank of Canada, he
visited and spoke here on Saturday in his
capacity as chairman of the National War
Finance Committee, the important body in
charge of the Fifth Victory Loan campaign.
By reason of a western schedule of speak-
ing engagements which accounted for prac-
tically every minute of his time beyond the
minimum required for sleeping and eating,
the local committee did well to get the dis-
tinguished banker here for an afternoon
meeting. And those who heard Mr. Towers
went away fully confident that the man
directing the sales mechanics of this new
issue will be an inspiration to the thousands
of willing workers who are intent on run-
ning up a record response.

Mr. Towers quite properly described the
Fifth Victory Loan as a test of our staying
power; and "war is a rigorous judge." But
we do not think either he or Minister of
Finance Isley need have any qualms about
its success. The Canadian people have
learned by this time that every paper token
of their belief in Canada's cause and in
Canada's future they add to their present
investments will be another contribution to
the victory on which everything depends.
And, by the same token, they will increase
their capital against the day when peace
will usher in the beginning of the nation's
return to the "better Canada" to which Mr.
Towers beckoned all Canadians in his ad-
dress. Those who increase their holdings
of Victory Bonds—plus those who are now
about to purchase these securities for the
first time because they realize it is good
business for themselves—will also prove
to the rest of the United Nations that they
have the necessary "staying power" to meet
all requirements.

Willkie and Welles

ONLY ON RARE OCCASIONS DO
prominent personages of opposing
political faiths—or, at least, wearing dif-
ferent labels—use almost identical terms to
express their views on basic international
issues. Yet Mr. Wendell Willkie on Fri-
day and Mr. Sumner Welles on Saturday
provided a striking exception to a recog-
nized rule.

Speaking at St. Louis less than 24 hours
earlier than the recently-retired United
States Under-Secretary of State, the un-
successful Republican presidential candidate
of 1940 said in part:

"I should like to see this country exercise its
utmost qualities of leadership and moral force to
bring Great Britain, Russia, China and the United
States to a point of understanding where they will
make a joint declaration of intention preliminary
to forming a common council of the United
Nations, and eventually all nations."

The titular head of the Republican Party
—by way of objecting to ex-isolationist Gov-
ernor Dewey's plea for an immediate mili-
tary alliance between the United States and
Great Britain as the cornerstone of Ameri-
can foreign policy—unequivocally declared
that the cause of world peace would not be
advanced by "defensive and offensive alli-

ances between two of the principal allies."
On the contrary, "our only chance to realize
man's hope for peace" would have to derive
from an "understanding" among all the
United Nations as at present constituted—
and strengthened, obviously, by their ulti-
mate victory through common sacrifice.

Mr. Sumner Welles, as a high officer of
state in the administration of Mr. Roose-
velt, but speaking for the first time as a
private citizen in more than a decade, fol-
lowed with his views before the Foreign
Policy Association on the occasion of its
25th anniversary. He urged that Great Brit-
ain, Russia, China and the United States
agree soon on certain basic principles to as-
sure the creation of a stable world after the
war. And he added:

"The time has come for the American people
to be told by their government, within the limits
which confidential negotiations with military
allies permit, what the country's major objectives
are for security, social progress and prosperity in
the postwar years."

The ex-Under-Secretary of State could
not, for one, "subscribe to the philosophy
which some maintain that a policy cannot be
initiated until after the people have brought
pressure to bear for its adoption." Such
a philosophy, Mr. Welles argued, "would
seem to be the very negation of the best
constitutional tradition in our representa-
tive form of government."

With Mr. Willkie, as head of the Republi-
can Party—but, as he admits himself, de-
tested by that element which seems fearful
of his internationalist shadow—and Mr.
Welles, an active proponent of the good-
neighbor policy, so expressing themselves in
quick succession, it is obvious that the
political aspects of next year's presidential
election will find the two potential antagon-
ists still thinking and speaking in 1944 as
they did in 1940 on matters of an interna-
tional character. Whether the globe-trot-
ting author of "One World" will be nomi-
nated next year by his party, or some other
organization, is a question that will remain
on the knees of the gods until the political
situation in Republican ranks clears.

While Mr. Welles is now a private citi-
zen—and he paid a fine tribute to his former
chief in his Saturday address—he still car-
ries a great deal of weight with that sec-
tion of the American public in both political
camps which is of the opinion that he left
the Department of State because his
outlook was too progressively realistic for
Mr. Cordell Hull. This, of course, is not our
business. But the two speeches from which
we have quoted are still remarkable for
their identity of view in respect of potent
world issues of the present and of the future.

Deserved All They Got

TWO PARTICULARLY UNSAVORY IN-
dividuals drew penitentiary terms from
Chief Justice Wendell Farris at the Van-
couver Assizes on Saturday. Few will cavil
at the sentences or His Lordship's castiga-
tions as he disposed of the prisoners.

One of the men, whose criminal record
covered a long period, called himself the
General Director of the World Fellowship
of Faith and Service and operator of its
adjunct, The Human Adjustment Institute.
He will have five years in which to reflect
upon his sins and to recover from the smart
which five lashes will impart to his body.
The other nasty specimen sported the title
of Leader of the Aryan Astrological Occult
Church of Christ. Both were convicted of
deceitful crimes.

The tragic and revolting aspect of these
cases is that the culprits were trafficking
in the emotions of that element of society
which craves a new approach to mysteries
beyond our ken. And a suave and sar-
torially-perfect apostle usually experiences little
difficulty in marketing his high-sounding
cult. This type of racket has flourished in
North America and elsewhere in recent
years—and the stresses and spurious pros-
perity of these times are bound to influence
those of more or less addled mind. What
puzzles the rational being, however, is how
supposedly-intelligent people, evidently with
ample money to spend on all sorts of "isms,
allow themselves to be fooled by these ob-
vious charlatans.

Surely the fundamental truths which
have stood the test of 2,000 years offer ade-
quate comfort for those who are perplexed
and sorely troubled. The real believer in
the age-old faiths has no need to resort to
escapist doctrines with fancy names.

Strange Phenomenon

THOSE GERMANS WHO REALLY UN-
derstand what is happening to their
country, the few who must perforce guard
their anti-Nazi thoughts with great care,
are probably wondering what has happened
as they contemplate a new phenomenon in
the Reich—Gestapo chief Heinrich Himmler
telling the truth! The "butcher's" weekly
organ, Das Schwarze Korps, reluctantly ac-
knowledges that the German retreat in Rus-
sia had resulted in a "tremendous loss of
political prestige in Germany."

It will be small consolation for German
families in mourning to know that all the
present discontents "soon will be forgotten
when strategic advantages which have been
won through a shortening of the front ap-
pear; then an advance in prestige will again
occur." And when a man of Himmler's dis-
tasteful record begins to tell the truth it
would seem that all is not too well inside
the Reich.

Hitler calls his fortress of Europe a
"reduit." It means the same as redoubt,
but he's afraid to say anything with doubt
in it.

"Insects have solved the problems of
their environment."—Nature. For instance,
look how bees monkey with pollen without
getting hay fever.

Loose Ends

CIGARETTE CRISIS

THE CIGARETTE consumer who has
promised himself, or perhaps more pre-
dominantly himself, that some day he or
she is going to cut down on his or her
smoking, is advised in a U.S. Department
of Commerce report that the exact date
is likely to fall in the year 1944.

Cigarette production in the U.S. in 1940
was enough to allow every inhabitant
four cigarettes a day, and roughly the same
production ratio was true of Canada. Now,
it appears that two-fifths of U.S. cigarettes
are going abroad, and although figures for
Canada are not available, the percentage
of our exports to the services must be
mounting much in the same way.

Since most young children and quite a
few adults don't smoke, or don't smoke
cigarettes, the supply was adequate before
exports became a factor. If our average
had been four a day and now two-fifths of
our allowance is withdrawn, we shall be
down to two and two-fifths cigarettes a day.
One can imagine what will happen then:
The nose and throat doctors may loose
some of their customers. Well-dressed
ladies and gentlemen may be seen picking
up-butts in the streets. Decorative lit-
tles for women will make their appear-
ance in large numbers. Plug tobacco may
have a renaissance and with it the spittoon,
though the latter utensil will be of plastic
rather than brass.

Yet it is not to be supposed that the
country will perish. The other great war,
as everyone knows, led to a great increase
in cigarette smoking. Women, including
aunts and grandmothers, first asked their
male friends to show their way and then
learned, by patient experiment, that the
way to light a cigarette is to inhale, not
exhale, as the match is applied. But in
1920, after this social revolution was well
under way, only enough cigarettes were
manufactured to give every man, woman
and child one and one-third a day. The
increase in production of cigarettes has
soared year by year since then. Now we
are returning to simpler ways, but not
quite to pioneer conditions.

AUTUMN GOLD

"Tis not autumn I would hold,
It's the glow of autumn gold.
It's the tang of frosty air—
Smell of leaf-fires everywhere:
Acorns thudding on the ground,
Squirrels and chipmunks scampering round,
Roadside sumach all ablaze;
It's the sleepy autumn haze,
Soothing us so we shan't miss
Summer's fragrant burning kiss.
Autumn drugs us well before
Winter plunders her bright store,
Drugs us so, through winter's grey,
Golden dreams may light our way."

'A MATTER OF ASTONISHMENT'

From Winnipeg Free Press
IT IS NO SECRET that in some official
circles in London there is little effective
realization of the fact that the Dominions
are self-governing countries which entered
the war not as colonies but as independent
Allies of Great Britain. But it must surely
be a matter of astonishment that, after
four years of war, the British Ministry for
Air should be so obtuse as to organize a
newspaper tour of the air establishments in
the Mediterranean theatre of war, and in-
clude in its representatives only of British
newspapers. This was done in spite of the
fact that it was pointed out that 50 per cent
of the personnel in the R.A.F. was com-
posed of men from the Dominions. It will
be recalled that 30 per cent of the total
R.A.F. air crew today is Canadian, a con-
tribution far exceeding Canada's propor-
tionate strength.

This extraordinary blunder by the Brit-
ish Air Ministry must not be taken to be
official British policy. That would be un-
fair, but it does mean that high-ranking of-
ficers of the R.A.F. have no idea at all of
what has happened in the 20th century in
the way of constitutional growth and in the
rising spirit of nationalism in the Domin-
ions. The air tour in the Mediterranean is
an insignificant incident in itself and will
not be allowed to affect the harmonious co-
operation of all the nations engaged in the
important task of smashing Hitlerite Ger-
many. But it must be recognized by our
government as something to be taken up
with the greatest vigor.

If the Royal Canadian Air Force were an
independent organization like the United
States Air Force such an incident could
never have taken place. But because the
R.C.A.F., for reasons of assisting the pro-
cess of general co-operation, subordinates
itself to the R.A.F., the British Air Ministry
should lean over backwards to ensure the
greatest possible measure of independence
inside the larger framework. Mr. Power,
Minister of Air, declares that he has been
trying for a very long time to work out
something satisfactory about the press re-
lations of the R.C.A.F. and of the large num-
ber of Canadians in the R.A.F. Apparently
he continually meets opposition. Why?
The present situation is outrageous and in-
defensible. That it still continues is because
red tape still tangles the negotiations. It is
high time to take drastic action.

GEMS OF THOUGHT—QUOTATIONS

"To select well among old things is al-
most equal to inventing new ones."—Tribulet.

"Selected thought depend for their flavor
upon the terseness of their expression, for
thought are grains of sugar or salt, that
must be melted in a drop of water."—Senn.

"A thing is never too often repeated
which is never sufficiently learned."—Senn.

Rome Doomed to Demolition?

In the military balance Rome
is just another city to be fought
for. Even its military impor-
tance is rather insignificant. For
the German general staff it is
just another point for delaying
action; the demolition plans they
have made prove that they know
they cannot hold it. Why, then,
destroy it? If they actually are
ready to assume responsibility
for doing to Rome what they
have done to Naples, no con-
siderations of caution will stop
them, least of all President
Roosevelt's statement, that the
Allies are coming as a holy
crusade, to liberate the Eternal
City, the Vatican and the Pope.
This challenge is likely to egg
them on to fiercer resistance and
more reckless destruction.

But, as Anne O'Hare McCor-
mick of the New York Times re-
minds us, Germany has to live
in Europe after the war. Ger-
mans have to live with other
people in the world. Supposing
they figure that their own people
will not be shocked by the sack
of Rome, and they've probably
right in assuming that Germans
bombed out of their own cities
—the Catholics of the Rhineland,
for instance—will not care much
what happens anywhere else, do
they assume an equal indiffer-
ence in the rest of Europe? Here
again they may be right, for by
now nothing they can do can
shock anyone, and the popu-
lations of Europe must be numb
to all but their own sufferings.

Nevertheless the suspense
that is felt as the armies march
on Rome proves that it is not
just another city. It is more
than a capital of defeated Italy.
It is more than the capital of
the Catholic Church, although
Archbishop Spellman's moving
prayer, that it may be spared
will be echoed throughout the
Catholic world. People who have
never seen Rome, who care
nothing for the Vatican, for
Italy, for the monuments of an-
tiquity that are crowded within
the narrow circle of the Seven
Hills as in no other place on
earth, feel a curious dread when
they think of its destruction. In-
stinctively the heirs of western
culture know that in some way
it belongs to them. They know
that its layers are a book writ-
ten in stone of the history of
our civilization.

In this sense it is the Eternal
City, a symbol of something our
ancestors have built, a symbol
of our era. Its destruction would

be symbolic, too—perhaps that
the capital of the world moves
eastward, or westward, perhaps
that the scepter has at last
passed from Europe. The battle
for Rome will not end the war
for Italy or decide much beyond
its own fate. But it will have
moral and emotional effects that
will prove again that military
considerations are not the only
guide to victory.

We know that just as there
were enemy agents thickly and
strategically located throughout
Poland, France, Holland, Norway
and other European countries, so,
too, there are many of them right
here in our own country.—Maj.
Gen. Thomas A. Terry.

Victoria To Be Short Of Okanagan Apples

For the first time in its history Okanagan apple growers have placed their customers on a quota basis effective today, a Yates Street wholesaler said, declaring that the move would mean Victoria might receive approximately 60 to 65 per cent of its apple requirements.

"Shorter crop this year, some overseas business and an unprecedented demand all across Canada for Okanagan apples are reasons for the move," the wholesaler said. "We don't know what our quota will be but it will be a percentage of the amount we had last year."

Though the apples will not be plentiful prices will not increase for the apples come under a price ceiling. McIntosh and Jonathan varieties are now on the market and the first shipment of Delicious from the Okanagan are expected next week.

"Those three varieties will hold the market until the Newtons come in about Christmas time," the orange and grapefruit wholesaler said. "The orange and grapefruit market has arrived, according to reports, with the wholesale market devoid of grapefruit for the past two weeks and none expected for another two."

"As for oranges we get one day a week's supply and the other five days there are no oranges. For the first two weeks of November there is liable to be no oranges at all until the new crop arrives," the wholesaler explained.

Grapes are expected to remain on the market for some time to come with local grapes for making jelly and grape juice reasonable in price, he said. Local blue grapes for preserving are under a ceiling of 10 cents a pound and Okanagan blues at 11 cents, he added.

Cranberries are now on the market but price is higher than last year and the crop is reportedly lighter. Celery, cabbage, tomatoes and potatoes are the most plentiful vegetables available at the present time.

135 Y.M.C.A. Members Join on First Day

One hundred and thirty-five memberships were taken out on the first day of the membership campaign drive of the Y.M.C.A. It was reported at the special Founders Day banquet.

The meeting was attended by Y.M.C.A. pioneer members, and R. S. Hosking, general secretary of the national council of the Y.M.C.A., spoke briefly on the founding of the Y.M.C.A. He told of the pioneer work in London and the present influence of the organization in the world. He pointed out that the Y.M.C.A. will celebrate its centenary next June 6.

E. G. Rowebottom was chairman and received division reports on the membership drive. The Red Division, under S. J. D. Clark, brought in 54 members; the White Division, under Dr. C. Carl, brought in 36 members; and the Blue Division, under W. W. Martin, brought in 45 members.

The objective of the drive is 350 new or renewed memberships.

Extra Molasses Allowed on Coupons

Users of molasses will get an extra two ounces over coupon value when they buy the three and a half pound containers, it was announced by ration officials today.

Up to the present, with the coupon value of molasses being 20 fluid ounces, those buying 42 ounce containers had to surrender three coupons. Now they will only have to surrender two coupons and the extra two ounces will be allowed them.

Similarly, where, in rare instances any 16-ounce tins of fruit are left, the consumer will get two tins for three coupons instead of having to surrender three.

IF HEAD COLDS
HANG ON.
DO THIS! To relieve discomforts, one of the best things you can do is put a good spoonful of home-tested Vicks VapoRub in a bowl of boiling water.
Then feel welcome relief come as you breathe in the steam of the medicated vapors that penetrate to the cold-congested upper breathing passages. See how this soothes irritation, quiets coughing, and helps clear the head-bringing great comfort.
rub throat, chest and back with VapoRub at bedtime. Vicks VapoRub works for hours—2 ways at once—to bring relief from distress.
Remember, it's Vicks VapoRub you want.

DOES INDIGESTION WALLOP YOU BELOW THE BELT?
Help Your Forgotten "2nd" For The Kind Of Relief That Helps Make You Rarin' To Go
More than half of your digestion is done below the belt—in your 33 feet of bowels. So when indigestion strikes, try something that helps digestion in the stomach AND below the belt.
What you may need is Carter's Little Liver Pills to give needed help to that "forgotten 33 feet" of bowels.
Take one Carter's Little Liver Pill before and one after meals. Take them according to directions. They help wake up a larger flow of the 3 main digestive juices in your stomach AND below—help you digest what you have eaten in Nature's own way.
Then most folks get the kind of relief that makes you feel better from your head to your toes. Just be sure you get the genuine Carter's Little Liver Pills from your druggist—\$34.

Do You Feel Nervous And All on Edge?
People suffering from loss of appetite and run-down condition with symptoms of nerve strain, often need a nerve and general tonic. Glycerol Lecithin with Vitamin B (1) supplies tonic ingredients. It is especially beneficial for convalescents. By increasing the supply of Vitamin B (1) in the system, appetite is improved and the system thereby built up to normal, if the loss of appetite was due to a deficiency of Vitamin B (1) in the diet. \$1.00 at all Cunningham Drug Stores and other Drug Stores.

Matron-in-Chief Chosen for R.C.N.

OTTAWA (CP)—Naval headquarters today announced appointment of Marjorie Gordon Russell, R.N., of Toronto, as Matron-in-Chief of the Royal Canadian Navy, with rank equivalent to that of commander.

Miss Russell, first woman to fill the position of Matron-in-Chief for the navy, has her headquarters at the naval hospital in Halifax, and is in charge of all nursing sisters and sick bay attendants in Canada.

For two years Miss Russell was in charge of the children's department at Montreal General Hospital. She joined the R.C.N. in March, 1942, as a nursing sister, and was posted immediately to Halifax.

Mrs. B. S. Heisterman Heads Y.W.C.A. Board

Mrs. B. S. Heisterman was elected president of the Y.W.C.A. at the board meeting and Mrs. C. J. Conyers and Mrs. R. J. Wride were appointed to fill vacancies.

A suitable gift was made to Mrs. John Baxter, retiring president, in recognition of the leadership she has given. A wedding gift was presented to Mrs. Charlotte O'Connor.

Mrs. Goodwin G. Johnson, Vancouver, has been appointed B.C. provincial vice-president of the Y.W.C.A. National Council.

Y.W.C.A. will participate in two community projects, one under the Council of Social Agencies in a plan for community recreation for 'teen-age girls and boys, and the other under a Victoria nutrition committee.

During the visit of Miss Julia Matouskova, from the Y.W.C.A. national office, board and committee members will meet Oct. 25. Miss Matouskova will meet with the leaders' group for Tuesday supper hour, and will address all club members in the same evening. Next day Miss Matouskova will speak at an open membership gathering.

Weddings

LOWDON-DAVEY

White bridal satin, fashioned on princess lines, with insets of rose point lace in the train, was worn by Catherine Anne, younger daughter of Mr. and Mrs. F. W. Davey, 126 South Turner Street, for her marriage Saturday evening, in Metropolitan United Church, to Cpl. Collington Humphrey Lowdon, elder son of Mr. and Mrs. Thomas Lowdon, 3529 West 28th Avenue, Vancouver.

A tiny coronet of lace and orange blossoms held the bride's veil of illusion net, and she carried a shower bouquet of red rosebuds, swainsons, and lily of the valley. She was given in marriage by her father, Miss Margaret Davey was her sister's only attendant, frocked in peach nylon over taffeta, with a Dolly Varden hat of peach net, trimmed with turquoise velvet. She carried a sheaf of cream chrysanthemums and Columbia roses. Sgt. A. Baz was best man, and S. Sgt. R. M. Harrison and Cpl. A. C. Manahan ushered. Mrs. J. E. Towns, end-cousin of the bride, sang "Where'er You Walk," during the signing of the register.

A reception was held at the home of the bride's parents, where guests from out of town included Mr. and Mrs. T. Lowdon, Miss Kay Lowdon, Mrs. H. Eagleson, Mrs. W. Reid, Miss Phyllis Lambert, all of Vancouver; Mrs. Stuart Hawkins, Penticton, and Mrs. H. Biggs, Nanaimo.

RUSK-WALLER

A quiet wedding took place Oct. 9 at the home of the officiating minister, Rev. J. C. Jackson, between Mrs. Amy Waller, formerly of Edmonton, and John Irvine Rusk, formerly of Ontario.

The bride chose a navy and white ensemble with corsage bouquet of red roses and freesias, and was attended by Mrs. M. Thomas, in brown, with a shoulder spray of cream rosebuds. A. F. Gurr supported the groom.

After a short honeymoon up-land, Mr. and Mrs. Rusk have taken up residence at 331 Huntingdon Place.

RABOUD-MCALEESE

Rev. Father Lockwood, R.C.N.V.R., officiated at the marriage Saturday in St. Andrew's Cathedral of Ann Mary, daughter of Mr. and Mrs. E. McAleese, 429 Government Street, and PO. John J. Raboud, R.C.N.V.R., son of Mr. and Mrs. F. Raboud, Chard, Alta.

Given in marriage by her father, the bride was gownned in broadened white satin, with a sweetheart neckline and leg-of-mutton sleeves pointed over the hand. A net halo, trimmed with orange blossoms, caught her chapel veil, and she carried a bouquet of Ophelia roses and swainsons. Miss Eileen McAleese was her sister's bridesmaid, frocked in heavenly blue crepe, with tiny matching feather hat, and carried a sheaf of yellow chrysanthemums. Patrick McAleese supported the groom.

Relatives and intimate friends attended a small reception at the home of the bride's parents. Among the many gifts was an engraved silver tray from the groom's associates at H.M.C.S. Givenchy, and a bridge lamp from the bride's fellow workers at the Avalon Beauty Parlor.

After a honeymoon in Vancouver, Mr. and Mrs. Raboud will reside on Vancouver Street. Going away the bride chose a two-piece wool light blue suit, navy hat and accessories and a corsage bouquet of carnations.

A social afternoon was held at the home of Mrs. K. Jaffray, 1339 Harrison Street, in compliment to Mrs. J. B. Morrison of Sir James and Douglas Chapter, I.O.E., whose husband and four sons are all officers on active service. Mrs. A. S. Christie presented the guests of honor with a corsage bouquet of gardenias. The hostess, Mrs. K. Jaffray, was also presented with a corsage bouquet.

Mr. W. Morton Paterson, president of the Victoria and District branch of the Canadian Red Cross Society, entertained at a luncheon today in honor of Mrs. Barnstone Tudball, National Commandant of the Canadian Red Cross corps, who is visiting the city. The affair was held in the Duke of Kent room. Others present were Sir Richard and Lady Lake, Hon. Herbert Anscomb, Mrs. Nancy Hodges, M.L.A.; Mrs. W. F. Bulen, Mrs. H. S. Beckton, Miss F. FitzGibbon, Mrs. Hobart Molson, Mrs. J. S. Brown, Mr. and Mrs. A. H. Peaslee, Mrs. R. C. J. de Setge (Vancouver), Mrs. J. N. M. Hodgins, Mrs. Alan B. Morkill, Mrs. A. D. Strath, Mrs. L. Miller, Mrs. C. E. Wilson, Mrs. J. Sutherland Brown, Mrs. Shirley Forbes, Mrs. J. L. Grimison, Mrs. D. W. Spencer, Mrs. D. O. Irving, Miss Honor Nash, Lt.-Col. R. S. Worsley, Brig.-Gen. J. G. Austin, Major Harold Brown, Major C. M. Milley, Major H. W. Walker, Messrs. C. B. Sanford, Stewart G. Clark, F. W. Jones, F. J. Baker (Sidney), E. E. Henderson, E. R. Cawley, R. Knight, H. J. Spotters Report Planes Over Victoria

Unknown to the average citizen as he goes about his daily activities in the streets below, from high on a building overlooking Victoria and surrounding districts, R.C.A.F. and volunteer civilian aircraft detection Corps observers stand guard against possible enemy attack.

The post, manned by airmen and women and civilian girl stenographers and clerks of the Civil Service employed by the R.C.A.F., is one of hundreds organized by the A.D.C. in British Columbia. But it is the only lookout where service and civilian "spotters" work side by side.

In operation for six months, this is the only official A.D.C. post for Victoria and vicinity. It is situated on the roof of one of the city's highest buildings. And from the glass-enclosed hut the observers stand shifts of one hour each from dawn to dusk.

Pretty Helen McDonald, 105 Menzies Street, takes her turn watching for aircraft from the top of one of Victoria's tallest office buildings.

Should the city be placed on an "alert" a 24-hour-a-day watch would be kept as one of the city's front-line defences against attack from sea and air.

But not only would the post provide the advance warning necessary for defence action in the case of enemy activity. It also would assist our own fliers in bad weather and other times of difficulties.

Instances in which service and privately-owned aircraft have been saved from crashing through the windows of the Aircraft Detection Corps can be seen on the records in the offices of the Corps' R.C.A.F. administration body.

Pilots of aircraft have lost their bearings above low-hanging clouds. A.D.C. observers reporting hearing the aircraft, although not being able to see it, have enabled the home base to wireless the pilot his position and guide him back to a safe landing.

A.D.C. reports are transmitted by established communications systems to R.C.A.F. headquarters, which has defending warplanes standing ready to meet any attack. The system is linked closely with the navy and army, assuring quick co-operation by all three services in the case of an emergency.

The Victoria post has direct lines to operations centres of the services, and over these regular reports are made.

In addition to scanning the skies and seas for movements of friend and foe alike, the "spotters" keep a watch for any unusual occurrences such as the outbreak of fire. Facilities for quick contact with the proper authorities in cases not ordinarily attended to by the services are available.

Victory Loan Support Asked By McNaughton

TORONTO (CP)—Lt. Gen. A. G. L. McNaughton, commander of the Canadian army overseas, called on Canadians in a broadcast message Sunday, on the eve of Canada's Fifth Victory Loan, to help "end the war in triumph for justice and right" that Canadians in the armed forces may return home soon.

"Four years ago the army, navy and air force totaled in all only some few thousand—nothing but a nucleus for our defence," he said. "You have taken that bare nucleus and out of it and around it have built our military strength until today it stands 500,000 strong... you have developed our navy from its prewar tiny size until today we have half a thousand war craft balling under our own flag on all oceans of the world."

"And on top of all this," he said, "You have found it possible out of your determination and abundance to provide one billion dollars as an outright gift to Bri-

Toronto Police Disperse Crowd

TORONTO (CP)—Thirty police officers and 20 detectives Sunday night averted a riot which threatened to flare outside the hall of the Ukrainian Na-

tional Federation when hundreds of supporters of the rival Ukrainian Labor Farmer Temple Association attempted to block the entrance to the hall.

Two men were arrested as ringleaders and lodged in jail on obstruction charges.

Members of the U.L.F.T.A. massed about the hall, formerly

owned by the association, protesting its use by the federation. The hall was confiscated in June, 1940, when the U.L.F.T.A. was declared an illegal organization under Defence of Canada Regulations and subsequently was sold to the federation for \$35,000. The ban against the U.L.F.T.A. was lifted last Friday.

TIRED FEELING! ADDS YEARS TO YOUR LOOKS

Tired people often have an overworked digestive system. Choked with food waste and lactic acid, because liver fails to supply 1 to 2 pints of bile every day.

If always tired, get your liver—purifier of blood, storehouse of energy. If liver carries off impurities, you feel full of pep. The safe way to increase liver's daily flow of bile is with BILE BEANS. These small laxative pills tone up entire digestive system—liver, bile, stomach, kidneys. Made of 10 pure vegetable extracts. Bile Beans act so gently they are called "The Medicine That Copies Nature".

Shake that "tired feeling" right away—and get some fun out of life! Try BILE BEANS tonight—they work while you sleep. Over 7 million boxes used last year, convincing evidence of how greatly they are helping others. 30

Are your Children THIN NERVOUS UNDER PAR?

Try New, Improved OVALTINE

Children who are thin, nervous and under par, science has discovered, are often found to be eating foods which do not give them enough of the essential food elements everyone needs for health.

As a "protecting" food-drink, New, Improved Ovaltine adds to a child's meals the essential food elements most likely to be deficient.

Three servings of New, Improved Ovaltine furnish a child with a significant portion of his daily requirement of Vitamins A, B₁ and D, Calcium, Phosphorus and Iron—all from Ovaltine alone. Also quick food-energy elements and high quality proteins for building sturdy bodies.

So—if your child is thin, nervous, under par, or eats poorly, start giving him New, Improved Ovaltine regularly. Get Ovaltine today at drug or food store.

Sir Robert Replies To Famine 'Charges'

Sir Robert Holland today issued a reply to Darshan Singh Bengeha and members of the East Indian Youth Association, who, in a signed statement, had "imputed blame to Britain for the existence and continuance of famine conditions in parts of India at the moment."

"The facts," said Sir Robert, "are as follows: Of India's 390,000,000 inhabitants, 339,000,000 live in villages or small towns and are ordinarily self-supporting as regards food, except when any particular area is temporarily affected by a cyclone or by failure of the monsoon. The urban areas, in which 50,000,000 dwell, are fed by surpluses from the agricultural areas and by imports from abroad. Before Japan attacked, 1,000,000 to 2,000,000 tons of rice came annually from Burma, Indo-China and Siam. The loss of these imports necessarily caused considerable strain, and the situation was aggravated in certain parts of India (Bengal, Bombay, Travancore and Cochin) by partial failure of the rice crop, owing to cyclones and floods.

"There was, however, a large wheat and millet surplus, thanks to the mighty irrigation enterprises set up by the British over a period of 100 years (79,000 miles of water channels and 53,000,000 acres under irrigation), which insures the peoples of

India against famine disasters.

"The central government also built up food reserves by a 'Grow More Food Campaign,' by introducing rationing in 58 major towns, and by eliminating speculation as far as possible through prohibition of bankers' loans against the security of food grains. Five million acres normally used for cotton growing are transferred to millet, and both Britain and Australia sent large consignments of food grains in India from their own depleted reserves.

"Serious practical difficulties have to be met in distributing supplies to scarcity areas. The Indian railroad system is under a tremendous war strain, because not only are vast bodies of troops being moved about, but Indian rails, locomotives and rolling stock have been dispatched in large quantities to Iran for the building of Russia's supply line. Secondly, flood breaches in the railroads to Calcutta caused a bottleneck in supplies from inland. Thirdly, administrative difficulties have impeded grain movements. Six of the 11 provincial governments (including the Punjab, a surplus area, and Bengal, a deficit area) are popularly elected and, being faced with pressure from electoral interests, are not always able to agree with the central government's distribution schemes.

"Again, the Bengal (autonomous) government is dominated by the Muslim League,

They'll Do It Every Time

and is therefore subject to violent criticism from its minority opponent; the Congress Party, which has found in the food situation a weapon of criticism. On the other hand, the Calcutta municipality is controlled by Hindus, who are naturally disposed to rebuff criticism of their own food-supply arrangements by blaming the Bengal government.

"But, in spite of all obstacles, Bengal is receiving a steady and growing stream of supplies. In the first week of September, one railroad alone carried into Calcutta an average of 3,500 tons of food grains daily. The battle of scarcity is being won."

Warspite Adds New Chapter To Great Battle Career

Of all the great, grey-jowled slugs which represent, to the peoples of the earth, the bulldog of Britain, the battleship Warspite stands out more prominently than any other as the epitome of toughness. Blasted and torn from stem to stern in two wars, she always comes back doggedly for more.

In the following article by an Associated Press correspondent with the British Mediterranean fleet gives a "personality sketch" of the famous "old lady."

By PAUL KERN LEE
ABOARD THE BATTLESHIP WARSPIKE IN THE CENTRAL MEDITERRANEAN. (Delayed, AP)—The "old lady" has been at it again.

The old lady, as she is affectionately called by everybody from the commander-in-chief of the Mediterranean Fleet down to her lowliest rating, is His Majesty's battleship Warspite.

Her latest exploit was to add the destructive power of her eight 15-inch guns to the naval fire which played such a large part in the victory of Salerno.

The knowledge that she is the busiest of her breed atones for some of the months any battleship has to spend in harbor. Something that also atones for a lot was the privilege of escorting into Malta the surrendered Italian fleet.

ALWAYS COMES BACK
The Warspite has been blasted by bomb and shell in two wars, but has always come back full of fight. She has specialized in tough, close work in narrow waters—always perilous for big ships.

On Nov. 26, 1913, the commissioning pennant was run up the masthead of the Warspite, the seventh of her name. The first Warspite was the 29-gunner built in 1896, the flagship of Sir Walter Raleigh in the Battle of Cadiz. There has been a Warspite in the Royal Navy almost all the time since.

This one was first blooded in the Battle of Jutland in 1916. Her steering went temporarily out of control and the Germans hit her seven times.

It was 1917 before she was ready for sea again, and by then the surface action of the First Great War was over.

Her first test of the Second Great War was at Narvik, north of the Arctic Circle. On April 13, 1940, the Warspite and escorting destroyers nosed into narrow twisting Norwegian fjords. Seven new German destroyers were destroyed and other damage was caused which the Germans never were able to repair.

On July 9, 1940, she participated in what has been called the Battle of Calabria—the gunnery officer, Lt.-Cmdr. John Graham Hamilton, describes it as a "long-range surface action against the fleeing Italian fleet."

HELPED 8TH ARMY
The Warspite next went up the African coast to support the Desert Army and ripped off Fort Capuzzo with 15-inch shells Aug. 17, 1940. Later she went to the help of the Greeks, whom Mussolini had attacked, lambasting Valona, Dec. 10, 1940, then returned to Africa to do the same for Bardia Jan. 3, 1941.

She beat up Tripoli April 21, party were divided into squads and led by guides to various points of interest.

Present when an unidentified aircraft was reported as having crashed at Cordova Bay, the visiting party saw the crew of an emergency plane scramble and head for the scene of the crash. Besides seeing the control tower and hangars the group saw bombers, fighters and training craft and were permitted to go through many of the planes.

Similar visit to the R.C.A.F. base will be conducted for Victoria businessmen in service clubs Oct. 23 and 30.

REACTION of a well-known Victoria athlete after seeing one of the big football games in the United States is contained in a letter from Dave Wilson, captain of last year's Victoria College rugby team and president of the Students' Council at college last year. Dave, located with the R.C.N.V.R., at London, Ont., is the son of Mr. and Mrs. T. Wilson, 3133 Delta Street, and was one of the most promising young rugby stalwarts developed here. He was also a fine sprinter in Archie McKinnon's Flying "Y" squad.

Taking advantage of a 72-hour leave, Wilson proceeded to Detroit to take in the gridiron classic between Notre Dame and Michigan. Describing the pigskin battle Wilson writes as follows: "It was one peach of a game. Notre Dame won 35 to 13 but they had to use every trick in the bag to do so. There was plenty of good football. One fellow called Bertelli for Notre Dame was downed by a player from the other side. He made most of their gains in that fashion. Michigan had two good chances to better their score. Twice they had first downs on Notre Dame's nine-yard line but were held out on both occasions. The Notre Dame team is sure a well-trained outfit and they play colorful football."

"The Michigan band was there—100 pieces with five drum majors and were they snappy! I was surprised that there was no organized cheering. Michigan had five leaders but no cheering section. The cheer leaders worked in front of the service men's section but, of course, the boys didn't know all the cheers."

Army Squad Takes First Rugby Game

Opening rugby match of the season Saturday saw the Army, despite the handicap of having only 11 men on the field, turn back the R.A.F. 14 to 6. Packing superior scoring punch in their backfield the troops were able to take better advantage of scoring opportunities. Army led 3 to 0 at halftime.

Only score of the first half came when a neat passing play from McCorkall to Cullin to Smith resulted in the last-named plunging over the line. The conversion failed.

The second half was in its infancy when Douglas went over for the second Army try and McCorkall kicked between the posts for the extra two points, making the score 8 to 0. A fumble by the Army allowed the R.A.F. to dribble the ball over the line with Harris dropping on it for a score. The kick was wide.

When the R.A.F. drew a penalty McCorkall split the posts for another three points for the troops and they added their final score soon after, a passing play from Cullin to Bray to Greig putting the last-named across. Final

But they did get one good cheer going. A parade of soldiers took place before the game. They had their overcoats on and somebody started yelling: "Are you warm enough?" In about a minute the entire stadium took it up and it really sounded swell. It wasn't long before this turned into "Take it off!" and we had a lot of fun yelling that.

"The game was played at Ann Arbor, Michigan, with 86,000 people jammed into the stadium. The football field is built in a natural depression and the grounds are much lower than the street surface outside the fence. Ordinarily they charge 55 cents for servicemen but we got there after all the seats had been sold but were taken care of."

"Another sailor and I hitchhiked out and it took two hours to ride 30 miles. The roads were just packed. The drivers remained in line most of the way but some got fed up and were driving on the wrong side while others were driving their cars on the grass, off the road completely."

The strangest of all National Hockey League training seasons is running true to form. Manager Lester Patrick, whose New York Rangers are training at Winnipeg, had a telephone call from one of his rookies.

"May we sleep three in a room?" said a voice. "You may, but why don't you get another room?" Patrick asked. "You can't sleep three in a bed comfortably."

"That's all right," replied the voice. "We like it that way." Patrick was too surprised to refuse.

Vancouver Golfers Win Over Seattle

VANCOUVER (CP)—A 12-man war industries golf team from Vancouver, B.C., including Alberta open champion Stan Leonard and Vancouver city champ Hugh Morrison, defeated a similar 12-man team from Seattle Sunday in a golf exhibition 38 to 15.

The Vancouver team won the singles 23 to 13 and took the four-ball competition 15 to 3.

Stan Musial Signs

ST. LOUIS (AP)—Stan Musial, 23-year-old outfielder for the St. Louis Cardinals and National League batting champion for 1943, has been signed to a three-year contract, President Sam Breadon said Saturday.

No salary terms were announced. Breadon disclosed the signing was prior to the world series.

Musial made 220 hits for the season and topped both major leagues with a .357 batting average.

Regina Gridders Beat Winnipeg To Gain Playoff Hope

REGINA (CP)—A one-point victory for Regina All-Services Roughriders over Winnipeg United Services here Saturday moved the Saskatchewan team into a contending position for the Western Canada Armed Services Football League playoff.

Regina's 6 to 5 win pushed them a game ahead of their opponents and to within a game of the undefeated Winnipeg R.C.A.F. They will have one game against almen while United Services must win both their contests against the almen to clinch the two-team playoff.

L.A.C. Ken Charlton capped a Regina drive with a spectacular 35-yard sprint around end for a touchdown while A.C.I. Frankie Mathers made the convert for the extra point to give Roughriders a 6 to 0 lead in the second quarter.

The Winnipeg team came back a few minutes later to block a Regina kick with Bert Cerecki, veteran Winnipeg lineman, dropping on the ball for a major score. Lieut. Lee Sherman missed the convert that would have deadlocked the game.

EASTERN GAMES

TORONTO (CP)—Hamilton Flying Wildcats and Toronto R.C.A.F. Hurricanes continued their undefeated march in Ontario Rugby Football Union competition Saturday, Hamilton defeating Ottawa Combines 24 to 0 at Ottawa while Hurricanes smothered Toronto Indians 19 to 0. Both teams have five straight victories to their credit.

College of Pacific Continues Grid March

NEW YORK (AP)—The top-ranking United States college football teams continued to set a fast pace Saturday with only Navy of the unbeaten big five receiving a severe test.

The middies from Annapolis had to go all out to whip Penn State, 14 to 6, on a rain-soaked gridiron for their fourth straight triumph.

Little College of Pacific sprang probably the biggest surprise of the day by defeating the professional-studded Del Monte pre-flight team, 16 to 7. Southern California accomplished a 34 to 0 licking of San Francisco, while Duke tamed North Carolina, 14 to 7.

Notre Dame and Army, only a notch below the Irish in the rankings, moved a step nearer making their Nov. 6 clash in New York's Yankee Stadium "the game" of the year. Notre Dame whipped Wisconsin 50 to 0. Army remained unbeaten and unscathed upon as Glenn Davis from California once more gave a scintillating performance in a 52 to 6 rout of Columbia.

Pennsylvania's Quakers didn't even have a good workout in rolling over Lakehurst Naval Training Station, 74 to 6.

Opening Soccer Matches

R.A.F., V.M.D. Victors

Victoria Machinery Depot and R.A.F., bitter rivals for the first division soccer championship last season, started off on the right foot again Saturday as they won their opening matches. The shipbuilders turned back the Navy 5 to 3, while the British Flyers smothered Yarrow's, making their first appearance in the circuit, under a 9 to 0 count. Third fixture of the afternoon saw the R.C.A.F. another new entry, play to a 1 to 1 deadlock with the Army.

Weather was anything but good for the opening fixtures and at the finish the players looked as if they had been playing in a duck pond. Heavy ground conditions made good soccer impossible. The elements naturally cut down attendance considerably.

George Payne and Alvin Parks provided the scoring punch in the triumph of the V.M.D. over the Navy, the former driving through for three goals and Parks providing the other two. V.M.D. were out in front 3 to 2 at halftime. One of the Navy goals was handed them when Musgrave deflected the ball into his own net.

With Richmond, R.A.F. centre-forward, having another field day with four goals, the British airmen had little more than a good workout in their engagement against Yarrow's. The match was only minutes old when Richmond fired home his first counter and shortly after the kickoff made it 2 to 0. R.A.F. third counter came when Anderson deflected the ball into his own net and Cox, inside left, made it 4 to 0 before halftime.

Heading the ball into the net from a corner kick by Craig, Richmond made the score 5 to 0, and Craig got one himself a few minutes later. Taking a pass from Boulter, Richmond counted his fourth goal, and before the final whistle Boulter and Dunn added the eighth and ninth counters.

R.C.A.F. and Army put on a hard-fought exhibition, with each club finding the net once during the 90 minutes.

Wednesday afternoon at 2.30 at the Athletic Park the R.C.A.F. and Navy will meet with Dave McMillan as referee.

Major League Ball Operates in 1944

NEW YORK (AP)—In an uncertain world one of the reasonable certainties is that there will be major league baseball again next season.

During the world series the presidents of the two major leagues were kept busy answering queries about next year and there was no hesitation in their declaration that baseball would keep going.

The problems confronting the sport appear more hazardous now than they did a year ago when some baseball men were wavering about the advisability of continuing. However, there is one vital difference. The magnates know that the reaction of the public to baseball in wartime is favorable.

There is but one threat to the existence of baseball. That is a shortage of manpower. The most optimistic baseball men are counting on a change for the better in the war, particularly in Europe, before the 1944 season opens. If this comes they say the rest will be easy.

But baseball is prepared to go ahead whether or not this improvement occurs. Practical observers say that the clubs can operate with as few as 18 players each and this would require a pool of less than 300 men for the major leagues.

There is every reason to believe that this number, or more, will be available.

Preacher Makes Good As Football Coach

ROBY, Texas (CP)—The Rev. C. W. Parmenter, who combines coaching with preaching, is doing all right at both.

The 50-year-old Methodist minister took over the Roby High School football team this year when a coach could not be obtained. He never had coached before—in fact, never had played the game. But he wanted the boys to have their football; besides, he liked a good scrap.

He went to the Texas coaching school, studied the "T" formation and decided he would use that at Roby although his team was green and light.

First concern was some equipment. He arranged a program that netted \$285 as a starter. Now he finds the season will cost him at least \$100 of his own money. He gets nothing for coaching and teaches four hours a day in the school.

Roby has played four games, winning the first 6 to 0 and playing to a scoreless tie in each of the others. So Roby not only is unbeaten but unscored on, and one opponent boasted a 180-pound line. Moreover, the Rev. Parmenter says modestly that outfit was lucky to hold its boys to a draw.

He says Roscoe, Tex., with all of its 1942 first-string back, including a 200-pound line, likely will win the district championship, but "we are going to try to knock them for a row of stumps."

Proudly, the Rev. Parmenter adds that his boys "have almost quit cursing and not one of them smokes."

CANADIAN FOOTBALL

With the object of organizing a Canadian football league for 135-pound players, a meeting will be held tonight at St. Louis College, starting at 8.

All those interested in the plan are asked to attend the session.

Star-Studded Army Hockey Team Starts Training at Nanaimo

NANAIMO—Pacific Command army's powerhouse entry in the 1943-44 Pacific Coast Senior Hockey circuit, opened its three-week pre-season training camp here Sunday.

Seventeen players, including a quartette of ex-N.H.L. pucksters, were on hand for the opening workout.

Players now stationed at Nanaimo include Bill Carse, Terry Reardon, Nick Metz, and Joffe Desilets, former National Hockey League stars; Mel Lunde, Sammy Kennedy, Julian Sawchuk, Hugh Sutherland, Elmer Kreiter, "Pinkie" Melnyk, Ray Regnier and Bill Dufault, members of last year's Victoria Army team.

New faces to show here were Cpl. O'Hearn, Cpl. St. Amant, L.Cpl. Marloff, Pte. Bill Mohs, Gnr. Bill Kulyk and Gnr. Frank Gradd. Other players, specifically Dave McKay, are expected to don their hockey togs here early this week.

St. Andrews Wins Game With Shores

VANCOUVER (CP)—St. Andrews handed a makeshift North Shore United team its first defeat of the season by a score of 3 to 0 in the Coast Soccer League Saturday.

North Shore only had 10 men throughout the game and had to take the field without their goalie, George Steele, who is ill with pleurisy. Johnny Cavallin was unable to take his place between the posts and Manager Harry Longley had to fill in. Jimmy Robertson and Trevor Harvey are both out with injured legs. Norm McLeod is sick, and Bunny Dunbar and George Brandow were unable to play.

Gilbe Brandolini scored two of the Scots' goals, heading the first into his own net from 10 yards out in trying to clear a centre, and skidding another centre inside his own goalpost for the third counter. The second came from a penalty kick, wrongly given by the referee. This was scored by Wes Henderson, who missed another penalty shot shortly after which Harry Longley saved.

Intercity Rugby Matches Arranged

VANCOUVER (CP)—The British Columbia Rugby Union met Sunday, decided on McKechnie Cup schedule dates and elected Harry Gilpin of Vancouver as acting president in the absence of O. Moscrip, now in the R.C.A.F.

The McKechnie Cup competition will open Oct. 30 with Varsity meeting Victoria. Other dates set were Vancouver-Varsity, Nov. 11; Varsity-Varsity, Nov. 20; Vancouver-Victoria, Dec. 11; Varsity-Vancouver, Jan. 16, and Victoria-Vancouver, Jan. 22.

Sweeney Schriener Enlists in Navy

CALGARY (CP)—Dave (Sweeney) Schriener, former N.H.A. star, with New York Americans and Toronto Maple Leafs, announced Sunday that he had enlisted with the H.M.C.S. Teemseh navy, Calgary, and would be with the tars in the Alberta Service Senior League.

Navy club will be coached by Marty Burke, another former National League player. It was previously announced that Schriener would lineup with the local intermediates at Buffaloes, but since then he signed with navy.

Johnny Chad and Pete Slobodan, posted from Toronto to No. 3 S.F.T.S., arrived in the city Saturday. They will line up with R.C.A.F. Mustangs here this winter. Chad was with the Calgary club last winter, while Slobodan was playing coach of Lebridge Bombers.

SOMMER MEETING

Meeting of the Victoria and District Football League will be held tomorrow at 8 in room 43, Arcade Building. All teams are asked to have delegates present.

VANCOUVER RUGBY

VANCOUVER (CP)—Recording their second straight win in the English Rugby Miller Cup competition Ex-Britannia defeated R.C.A.F. 9 to 0 (two tries and a penalty goal to nil) Saturday, and went into first place in the standings. Rowing Club held the star Varsity fifteen to a scoreless draw in the other game.

Harris Signed As Buffalo Manager At Record Salary

DETROIT (AP)—Stanley Raymond Harris, the old American League trouper who didn't last a full season in the National League, has prepared the way to return to the junior circuit by signing to manage Buffalo of the International League in 1944.

Buffalo is the principal minor league affiliate of the Detroit Tigers, and the studied reaction here to Harris' latest baseball move, announced Thursday in Buffalo, is that he may return to an important role in the Detroit organization. Harris managed the Tigers five seasons before Mickey Cochrane replaced him in 1934.

Aside from polishing his best playing talent there, Detroit has made Buffalo a managerial proving ground. Steve O'Neil, who just finished his first season as Tiger pilot, managed Buffalo three years and Al Vincent spent two years there before Detroit moved him up as O'Neil's aide.

The Tigers have made no announcement on O'Neil's future but they are believed to be planning to sign him for 1944 at the major league meetings in December.

At Buffalo it was announced that Harris would receive the largest salary ever paid by the club and there also was a bonus agreement. For several years the Tigers have had a strong working agreement with the Bisons.

Wenger Cup Golf

First round of the women's Wenger Cup competition was played at the Gorge Vale Golf Club Sunday. Results follow:

Mrs. G. Alice and Mrs. A. Swan won from Mrs. S. Cooper and Mrs. A. O. Cooke, 2 and 1. Mrs. R. Rickinson and Mrs. D. Fanthorpe won from Miss C. L. Harris and Mrs. C. Keown, 5 and 4. Miss D. J. Grubb and Mrs. R. Hebbins won from Mrs. D. Bennett and Mrs. S. Halling, 3 and 2. Miss I. Ryles and Mrs. R. Fanthorpe won from Mrs. D. Ricardo and Mrs. J. Cunningham, 1 up.

Russ Dertell Plays

CALGARY (CP)—PO. Russ Dertell, posted from Dauphin, Man., to No. 3 S.F.T.S., Calgary, will be trying out for the goalkeeping assignment with P.O. Tiny Thompson's R.C.A.F. Mustangs of the Alberta Service Senior Hockey League.

GORGE VALE GOLF

In the men's medal competition at the Gorge Vale Golf Club Sunday, B. Snape was the winner with a net score of 68. F. L. Basanta, A. Oakley and J. Cunningham tied for runner-up, each with scores of 73.

Wilkes, was honored after the game with presentation of the Mike Kelley trophy for the most outstanding player in the Mann Cup series. Bert Large of Mimico won it last year.

Cary Grant Stars In Escapist Movie

In a world deafened by war news and battle headlines, snappy musical offerings and well-plotted action romances, especially when flavored with plenty of comedy, are eagerly patronized.

Cary Grant's newest RKO Radio vehicle, "Mr. Lucky," now being shown at the Atlas Theatre, meets this latter requirement, which may be one reason why the picture has proved so successful in its first showings. Basically, it's a romantic comedy-drama of a financially embarrassed gambler and a spirited society girl, and it gives Grant and his leading lady, Laraine Day, exceptional opportunity for their talents.

'Stage Door Canteen' At Plaza, Oak Bay

"Stage Door Canteen," which comes to the Oak Bay and Plaza Theatres today, through United Artists' release, is the first picture in which stars appear as themselves instead of as actors and actresses playing fictional parts. Katharine Cornell makes her motion picture debut as a coffee server, her usual job at New York's entertainment spot for servicemen, and Judith Anderson, Tallulah Bankhead, Ralph Bellamy, Ray Bolger, Ina Claire, Gracie Fields, Lynn Fontanne, Helen Hayes, Katharine Hepburn, Hugh Herbert, George Jessel, Gypsy Rose Lee, Alfred Lunt, Harpo Marx, Merle Oberon, George Raft and Martha Scott comprise only part of the star contingent.

'Slightly Dangerous' Sparkling Comedy

"Slightly Dangerous," a gay, sparkling, modern comedy, brings Lana Turner and Robert Young together for the first time and comes to the Cadet Theatre today.

Latest Masie Show Proves Funniest Yet

Maisie's on the loose again with a series of the most thrilling, side-splitting adventures to date. The Metro-Goldwyn-Mayer film, "Ringside Maisie," starring Ann Sothern, opened today at the York Theatre for an engagement of three days.

Prime Ministers May Meet in Spring

By SYDNEY GRUSON
 LONDON (CP)—Prime Minister Churchill's parliamentary endorsement of plans for a meeting in London of the Dominion Prime Ministers, the first of the war, is expected to speed up preparations for the conference, though, as far as can be learned here, nothing has yet gone beyond the blueprint stage.

Though the Dominion leaders have not met as a group, all of them, except Prime Minister Curtin of Australia, have visited Britain for discussions since the war began.

One source close to the situation said that as matters stand now "plans are not much further along than when the idea was first broached." He added that the conference may not take place before spring, but it is thought in London that war developments may make it advisable for it to be called much sooner than that.

English Trouble For Cuban Singer

For the second time in her film career, Carmen Miranda raced through a course of English sufficient to enable her to wade through the dialogue of a picture.

NEW ZEALAND READY

With the return of Prime Minister Peter Fraser's government in the recent New Zealand election, stabilizing that Dominion's home front as far as elections were concerned, the way apparently was cleared for an early meeting of the Prime Ministers in London. Field Marshal Smuts is in London now.

Mr. Churchill told the House of Commons that "an important immediate objective" of the British government was to arrange the meeting. He set early 1944 as the time when it might be held.

Mr. King has expressed his readiness to attend in behalf of Canada whenever definite arrangements are made, and Mr. Curtin, whose Labor government holds a safe majority in Australia for the first time, is believed to be anxious to meet the other Empire ministers for a personal sounding of his proposal for a postwar Empire Council.

Alternative Workers May Cut Mill Wood

Alternative service workers may be used in some B.C. mills to turn out fuel wood, Hon. A. Wells Gray, Minister of Lands, said today.

Already three such men have been working in Great Central mill and have been releasing three carloads, about 50 cords, a day.

Forest branch of the lands department also hopes to secure small mills and power saws to increase output of conscientious objectors—to at least 2,500 cords a month.

Last month the men cut 951

cords of wood and piled it by the roadside. To date 4,281 cords of wood have been cut.

In many mills much wood is wasted, because there are not enough men to pick it out before it reaches the burners. Many thousands of cords are being burned.

The whole matter is now being negotiated by the lands department and the Federal government's fuel controller.

Organize Y.M.C.A. Classes This Week

Y.M.C.A. class for business and professional men in leadership and public speaking will be organized this evening at 8. The instructor will be Frank Paulding, general secretary of the Y.M.C.A. The course runs for a total of 18 weeks.

The public speaking course for women will be organized Thursday in the Y.M.C.A. board room.

Fifth Victory Loan Drive Launched

Graham Towers, Dominion chairman of the Victory Loan and governor of the Bank of Canada, second from left, visited Victoria Saturday and addressed a public meeting in the interest of the Victory Loan. Winslow, vice-chairman.

Speaks in Ukrainian, Swears in Russian

Yakimovich, charged by a fellow Ukrainian, Nick Panasiuk, opened in city court today, but proceeded very slowly because of difficulty of understanding the informant's evidence, even with an interpreter.

Informant said he had been hit about the face by Yakimovich during an argument about a woman. Panasiuk said he had suffered a black eye, scratches and cuts which required several stitches and which kept him in hospital four days.

In answer to questions of where he lived and what his work was, the informant replied he was illiterate. He swore the charge by his cross, not being able to write his signature.

The trial was adjourned when Panasiuk said he had asked one of his friends who saw the incident to come to court, but the friend had refused. He said he believed this man "would be very favorable to him."

Mayor A. McGavin unfurls the Victory Loan flag at the City Hall Saturday, following the three services' parade.

T.C.A. Planning Postwar Expansion, Says Larson

"Trans-Canada Airways is making plans to ensure Canada's participation in the world's postwar commercial air picture," said O. T. Larson, T.C.A. vice-president, who Sunday paid his first visit to Victoria since the inauguration of national transcontinental service here.

"We have already established a trans-Atlantic service and the trend of air developments on the Pacific is not being overlooked," he said.

Heading a group of company officials, Mr. Larson reached Victoria by the 11:25 transcontinental plane Sunday and after inspecting the terminals here left Patricia Bay aboard the 4:15 airliner on the return trip.

With him was Sqdn. Ldr. J. H. Tudhope, executive assistant; E. W. Stull, operations superintendent, western division, Lethbridge, and Jack Robinson, traffic manager, Vancouver. The party was met here by Gerard Dempsey, local traffic representative.

300 MEN IN FORCES

Three hundred men of the T.C.A. service are now serving in the armed forces, Mr. Larson said in pointing to the part being played by T.C.A. in the war effort. Women now serving the T.C.A. had made this possible. The girls in the air service were doing excellent work, said Mr. Larson. The company is turning out classes continuously and girls are proving efficient in radio and mechanical work, overhauling propellers and instruments, and in office assignments.

The great bulk of passengers now carried by T.C.A. are military men, war contractors and others engaged in some branch of the war effort.

T.C.A. will do its share in the postwar rehabilitation scheme, Mr. Larson indicated.

With future development in the air in mind the company plans to absorb as many returned men as possible in its commercial services, he said.

"The appointment of Mr. Towers carries with it assurance of the loan's success," he said. "I am proud to say the B.C. government has led the provinces on all occasions. Right now there are \$21,000,000 of Victory Bonds in the vault."

Maj. Harold Brown, supporting Mr. Towers' belief that this will be "the greatest moral test of our times," expressed confidence that Vancouver Island would speed the victory by wholehearted and spontaneous co-operation in true democratic fashion.

Mr. Towers was guest of honor following the meeting at a dinner given by local bankers at the Union Club. He left later on the midnight boat for the mainland, where he is speaking today.

Traveling with him is H. A. Cochran, assistant chairman of the National War Finance Committee, and W. H. Budden, secretary.

Premier John Hart, who introduced Mr. Towers, announced that the provincial government would invest a total of \$6,000,000 in the Fifth Victory Loan—\$2,

HOW TO RELIEVE PILE TORTURE QUICKLY AND EASILY
If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of setting this condition becoming chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.
For this purpose get a package of Hem-Roid from Modern Pharmacy and Cunniff's Drug Store, or any drug store, and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly relieve the itching and soreness and aid in healing the sore tender spots. Hem-Roid is pleasant to use, is highly recommended and it seems the height of folly for anyone to risk a painful and chronic pile condition when such a fine remedy may be had at such a small cost.
If you try Hem-Roid and are not entirely pleased with the results, your druggist will gladly return your money.
If you want to get all the sugar in some of our common vegetables you will have to eat them raw; carrots, for instance, lose sugar freely when cooked.

J. W. Dafoe Honored, 60 Years In Journalism

WINNIPEG (CP)—One of Canada's outstanding citizens—John Wesley Dafoe, author, editor, educationist and leading authority on Dominion and international affairs—was honored here Saturday night on the 60th anniversary of his entry into newspaper work.

More than 400 persons—including many dignitaries—attended the testimonial dinner sponsored by the Winnipeg Press Club. Hundreds of congratulatory messages poured in from friends in all parts of Canada.

Mr. Dafoe, 77, editor-in-chief and president of the Winnipeg Free Press, in a modest way gave his life story—a colorful story of newspaper growth from four-page tabloids to modern dailies, of stirring pioneer days, political battles and Canada's growth to nationhood.

STARTED IN MONTREAL
The dean of prairie newspapermen, whose words of wisdom on political and economic affairs of the country continue to flow from his pen, was just a 17-year-old "green" country kid when he began as a cub reporter on the Montreal Star in 1883.

Almost overnight he hit the front pages. He exposed "rascally" clothiers of St. Joseph's Street who had been victimizing country folk by selling expensive goods and delivering cheap materials.

He told of the day 60 odd years ago when every boy or girl was born as either a "little Liberal" or a "little Conservative," of party and independent newspapers, of the secondary place given news compared with the spread given editorial views, and of serials that often were repeated in the dailies of that time.

WINNIPEG ARRIVAL
Recalling his arrival in Winnipeg, a city of 16,000 in 1886, Mr. Dafoe said these were the days when newspapers were dying or being born so rapidly it was difficult to keep track of them. At the time, Winnipeg had the Free Press, the Manitoban, the Sun and the News.

Turning to wider fields, he said Winston Churchill was "the greatest man the British race has produced in 1,000 years."

Mr. Dafoe recalled first meeting Britain's Prime Minister in 1909 at the Imperial Press Conference.

There were some great speakers at the conference "but when Churchill came to talk to us, he was best of all."

"And to think that for years in England there were leaders that kept Churchill in the doghouse."

Born at Combermere, Ont., Mr. Dafoe was the Montreal Star's parliamentary correspondent in 1884 and '85; editor of the Ottawa Journal, 1885-86; writer for the Winnipeg Free Press, 1886-1892; editor of the Montreal Herald, 1892-95; editorial member of the Montreal Star, 1895-1901, and with the Winnipeg Free Press as editor-in-chief since then.

PRESS CONFERENCES
In addition he took an active part in Imperial Press Conferences of 1903, '20, '25 and '30. He was attached to the Canadian delegation to the Paris Peace Conference in 1919; was president of the Canadian Institute of Pacific Relations, 1936-38; Chancellor of the University of Manitoba since 1934, and a member of the Royal Commission on Dominion-Provincial Relations, 1937-1940.

Mr. Dafoe's books include "Over the Canadian Battlefields"; "Laurier, a Study in Canadian Politics"; "Contributions to Great Britain and the Dominions"; "Clifford Sifton in Relation to His Times"; and "Canada: An American Nation."

The Press Club presented Mr. Dafoe with a globe and a life membership in the club, which also was celebrating its 21st anniversary.

PREMIERS ATTEND
Guests at the head table included John Bracken, national Progressive Conservative leader; Premier W. J. Patterson of Saskatchewan; Lieutenant-Governor R. F. McWilliams of Manitoba; Hon. T. A. Crerar, federal Minister of Mines and Resources; Premier Stuart S. Garson of Manitoba; John Grieson, head of the War Information Board; Senator W. A. Buchanan, publisher of the Lethbridge Herald; Wesley McCurdy, publisher of the Winnipeg Tribune; J. A. McNeil, general manager of the Canadian Press; Consul-General Alfred W. Kiefforth of the United States; Dr. Sidney E. Smith, president of the University of Manitoba, and Hon. J. Allison Glen, Speaker of the House of Commons. John M.

Princess Pats In Sicily Uphold First War Honors

By FRANK FLAHERTY

Soldiers of the Princess Patricia's Canadian Light Infantry had some hard battles in Sicily, but tough fighting is not new to the unit which won undying fame on the battlefields of France and Flanders in the first Great War.

The P.P.C.L.I. of "Princess Pats" is not an historic regiment as units of the Canadian army go, but it holds a special place whenever Canadians talk of fighting men because of its unique record in the first Great War.

The unit had the longest continuous service on the western front of any unit from overseas and a longer service than most British units. It came close to being wiped off the map more than four times, and endured long months of grueling drudgery in trench warfare.

Of 5,096 men who passed through its ranks 1,272 died from enemy action and the total number of casualties was 4,076, of whom about 550 were repeaters, men who returned to battle once or more after wounds.

As war clouds gathered in August, 1914, a wealthy young veteran of the South African War named A. Hamilton Gault got the idea of forming a unit of veteran soldiers to fight with the British forces. He laid his proposal before Sir Sam Hughes, Minister of Militia, at Ottawa on Aug. 3, the day before the war broke out and received encouragement.

FORMED OF VETERANS
In a few days formation of a unit was authorized with Gault undertaking to contribute \$100,000 to the cost. Founder took the post of second in command and an experienced British officer, Lt.-Col. Francis D. Farquhar, took command. An appeal for recruits to men who had military experience was telegraphed across Canada and in a few days veterans were converging on Ottawa.

Out of 3,000 applicants 1,098 were accepted, and of these 1,049 had been with the colors before, while 456 had seen war service. Between them they had 771 medals and decorations. Few of them were Canadian born. They were mostly British ex-soldiers who had settled in Canada, and Gault's idea was to get men who would require little training and could get into the fighting quickly.

The unit was in England by late September and in France in December, where it was brigaded with British regulars in the 27th Division. In the defence of

Voices Labor View On B.C. Land Grant

Robert Noble, secretary of the Victoria Labor Council, today issued the following statement "as the view of labor regarding our returned men and the proposed grant of 1,000,000 acres of land in B.C.":

"Had this been a straight gift without strings to it we would endorse it. But, like all other plans which were put forward after the last war and, judging by this example of so-called rehabilitation, it is going to be tied closely to the financial structure. We have given away thousands of acres of our provincial land to corporations on the flimsiest excuses of repayment, but now, when we have the chance to make a friendly gesture and a means of finding a place for our returned boys in our province, we must be guided by the policy of returns on investments."

"This land must be public domain, or Mr. Hart would not be able to sell it. Therefore, it must belong to all the people, and as we, the workers, comprise 90 per cent of the population, we demand that this land be granted free and without any encumbrance to our returning men."

"We wish it to be known that in our opinion no considerations of money must enter into the rehabilitation of the men who saved our way of life."

VANCOUVER (CP)—Clem J. Marleau, 39, Vancouver shipyard worker, was charged with manslaughter following the death in hospital Sunday of Arnold Trussler, Police charge Trussler died of injuries received at the hands of Marleau during a fight Sept. 14. According to police, the fight was caused by a children's quarrel.

WEEKLY WARTIME FOOD HINTS

Martha Logan, Swift's famed Home Economist, whose weekly "cooking" column is a regular feature of this page, look for these valuable hints every Monday.

Stuffed Lamb Shoulder

Just as fine in flavour as the traditional Leg, is the Roast Shoulder

Even with 1 1/4 pounds to the coupon, many of us these days think twice before ordering a roast of lamb. Actually, a Roast Shoulder of Lamb extended with a savoury dressing is one of the really good ways of making your coupons stretch. A 5 pound roast, before the bone is removed, gives you at least three generous meals for a family of six. Serve it hot once, cold once with a delicious green salad and mint sauce or Indian Chutney, then use the balance for a savoury stew, Indian curry or hearty meat pie.

There are sixteen different recipes just for lamb left-overs in Martha Logan's famous handbook of meat cookery "Meat Complete." Send 10¢ for your copy to Swift Canadian Co. Limited, Dept. ME40, New Westminster.

MARTHA LOGAN'S DRESSING FOR A SHOULDER OF LAMB

1 cup bread crumbs
2 small onions chopped
2 cups, chopped fresh mint
1 tsp. fat
1 cooking apple chopped
2 to 4 tbsps. milk
salt and pepper

Mix all ingredients thoroughly and pack into cavity made by removing shoulder bone. Roast uncovered in a 325° oven allowing 40 minutes per lb.

"I'm my own boss now."

EVERY business started as an idea in the mind of some individual. Every shop—every farm—every factory—every worthwhile enterprise from banks to movie theatres, came into being because some individual had faith in an idea and the courage to back it.

Every Canadian has this right... the right to build his future in his own way—to go into business for himself if he chooses—and to reap the reward of his enterprise. So it has always been. That is the very essence of our free way of life, the solid foundation of our greatness as a nation.

What is PRIVATE ENTERPRISE?
It is the natural desire to make your own way, as far as your ability will take you; an instinct that has brought to this continent the highest standard of life enjoyed by any people on earth. It is the spirit of democracy on the march.

Posties Here Back National Drive For \$300 Pay Rise

Victoria postal employees and letter carriers telegraphed supporting the objects of the mass demonstration in Montreal inaugurating the nation-wide drive for a pay increase of \$300 a year for all Canadian post office employees.

Pay scale under which some family men get only \$85 a month was declared to be a shame.

"Congratulations on your effort; working all out here; heartiest support; every success," said the telegram sent by J. H. Hedley and Fred C. Hurry, secretaries respectively of the Victoria Postal Employees and the Association of Letter Carriers.

"There has been no salary adjustment in the postal service since 1927," they said after making public the telegram. "The maximum salary then set for letter carriers and mail carriers was \$1,500 a year, for postal clerks \$1,740. These maximum salaries are only reached after long years of service and efficiency. The government itself states that wages have increased 25 per cent in industry during the last few years.

"Surely there is nothing selfish or unfair in the postal employees asking for a salary increase at this time. We are certain that Canadian people, who have long appreciated the high standard of the postal service, would want us to live as decent, self-respecting citizens. We are equally sure that we all want the postal service restored to its former high degree of efficiency."

363 Now Securing Social Assistance

Victoria City now gives social assistance to 363 cases, all unemployed, whereas in February, 1933, the peak month for city unemployment rolls, relief was issued to 1,798. It was learned at the welfare office today.

Of the 363 cases assisted now, 102 are in convalescent homes, aged peoples institutions, or other harbors for those in failing health.

During the peak month in 1933, 1,128 of the relief cases were family heads. The total does not include dependents. In addition 670 were single unemployed. The larger total in the peak year included a certain number of those now classified as social assistance cases but was composed mainly of able-bodied men and women who were unable to secure work.

Apart from those physically and mentally incapacitated to the point where they need institutional care, the majority of unemployed today are people of advanced age who cannot be absorbed into industry.

Greek Traveler Told About 'Wool Trees' in India

Almost 2,400 years ago, a Greek traveler set down words with this meaning: "There are trees which grow wild in India. They have fruit which is wool, and is more beautiful than the wool of sheep. The people of India make clothes out of the tree wool."

That traveler had gone as far east as the city of Babylon, but he never had visited India. His story about wool-bearing trees was based on what he had heard, not on what he had seen.

The Greek traveler was speaking about cotton, not wool. In-

stead of growing on trees, cotton is taken from plants which have no woody trunks.

India may be the country in which cotton was first raised for the purpose of making cloth. An old record tells us that Alexander the Great caused cotton seeds from India to be planted in Egypt.

In about the year 850, cotton was planted in Spain and Italy. From that time to the present it has been grown in many countries.

There is a kind of cotton known as "sea-island," and it has been found growing wild on a number of islands. The West Indies are especially famed for this kind of cotton, with its long, silky fibres. Christopher Columbus took samples of sea-island cotton back to Spain.

Cotton thread and cloth were made by Indians who lived in Mexico, Peru and other warm parts of the New World.

Cotton was planted in Virginia at an early date. We are told that "cotton wool was to be had there" in 1620, only 13 years after Jamestown was settled. We also have a note that "cotton wool" was sold in Virginia in 1621 at the price of eight pence a pound.

The part of the United States known as New England got its first boatload of cotton in 1636. This cotton came from the West Indies.

Planters in Virginia made some progress with cotton growing, but most of them thought it was much better to plant tobacco. After the cotton was gathered, too much time was needed to take out the seeds.

A young man was to grow famous because he solved the problem of the seeds. His name was Eli Whitney, and we shall speak of his life tomorrow.

Doubts Milk Subsidy

"The recently announced subsidy of 55 cents a gallon on fluid milk to assist milk producers to meet the greatly increased costs of production is only going to be paid to those milk producers who bring sufficient pressure to bear on the authorities," said Sydney Pickles, president, Dist. A Farmers' Institutes of B.C., after an exchange of telegrams with the Agricultural Food Board in Ottawa today.

"Many milk producers, despairing of getting any really co-operative assistance from the authorities in Ottawa, are holding one auction-sale after another," Mr. Pickles said. "The cows sold largely go directly to be slaughtered or go to other barns to replace other cows to be slaughtered, on account of their milk production not being as high as it might be."

"In these days of scarcity of help in dairy barns and high feed costs due to increased costs of production, every milk producer only wants to keep top-producing cows in his barn. In spite of face-saving denials by bureaucrats, large numbers of cows are being butchered and, consequently, the milk supply situation, now acute, is becoming worse rapidly. If we must have bureaucratic control of our food production in war time, for heaven's sake, let us have bureaucrats with the ability to grasp the realities of the situation. It is most undesirable to have advertising agents and others, who may or may not be good at their former jobs, holding top positions in our food administration offices."

"The milk producers, who are endeavoring to maintain production by working anywhere from 12 to 16 hours every day in the year, are calling protest meetings

Dorothy Dix:

Dear Miss Dix—My husband and I are in our late forties. We have reared our family and made a good job of it and they are all fine men and women. But now they are married, with homes of their own, scattered about in different cities, and we are by ourselves and lonesome.

Now, we both love babies and we would like to adopt a little girl. I would like to have one who has no show in life and who I could make into a good woman by God's help, and who would bring happiness to us, too. Do you think it would be advisable for us to adopt a child at our time of life? So many tell us not to do it.

First Victoria firm to top its Fifth Victory Loan quota is Hickman Tye Hardware Co., who have 100 per cent of their employees already buying bonds or war saving certificates.

Incomplete returns at noon today show that the employees have subscribed 130 per cent of their objective, which gives them the privilege of the three-star pennant awarded to those firms with 15 per cent of the gross payroll invested in bonds.

After a successful midnight meeting at Victoria Machinery Depot, workers launched the Fifth Victory Loan with contributions totaling \$22,000 this morning.

Wing Cmdr. Albert Carter, M.M., who is now in charge of the steel department at the shipyard, spoke to the workers of the graveyard shift. Films were run by the National War Finance Committee, and a second speaker, Maj. H. R. Reblitt, M.C., D.C.M., R.C.A., fanned the enthusiastic audience with an inspiring address.

The blitzing of London and Plymouth, the return from Dunkirk, the flash-burning of a benzine tanker hit by a torpedo—these were some of the highlights of an address by Allan Jones, R.N., since 1937, at the Parliament Buildings.

P.O. Jones was one of several speakers on the Payroll-Savings Plan panel who initiated the Fifth Victory Loan campaign by addressing employees of large Victoria firms. He spoke also in the Sooke Community Hall during a concert and dance program conducted by Maj. G. S. Yardley, at which the band of Prince Albert Volunteers played.

Destruction of Swansea by enemy bombing and the desertion following as families fled to the hill around were described by P.O. Jones in a moving speech, in which he claimed that military and industrial objectives were ignored in favor of terrorizing civilians.

"Had it not been for the doggedness and willingness to sacrifice of the British people, the war would have been over long ago—and we would have lost it," he said.

On convoy duty at the time, P.O. Jones helped in bringing back troops from Dunkirk. Lack of equipment and weapons was responsible for a lot of suffering and heavy casualties, he believed, saying:

"They were sent to fight a tank with a .303, a bomber with a machine gun, and made to walk where the enemy rode."

He urged buying of Victory Bonds to prevent troops being handicapped by inferior weapons, ships being lost because of lack of depth charges for retaliation, and stressed danger of over-optimism.

"The Germans are convinced that even if the war takes 10 years, they will win. That's what we've got to fight against."

P.O. W. Galliver, R.C.A.F., addressed King's Printer staff. Police force at the City Hall had as speaker, E. C. Rowebottom, deputy minister of trades and industry.

Firemen and the inside staff of the City Hall heard P.O. Jones at separate Victory Loan rallies, while Flt. Lt. M. S. Layton, R.C.A.F., spoke to the employees of MacLennan, McFeeley and Prior.

Mayor and Reeves Urge Loan Support

"The speedy return of our menfolk to peaceful avocations depends on the weight of arms with which we now equip them." This is the message to citizens of Greater Victoria in a proclamation just issued by Mayor Andrew McGavin, Reeve W. L. Woodhouse, Oak Bay; Reeve E. C. Warren, Saanich; and Reeve A. Lockley, Esquimalt.

"Now that our men are in a position to carry the war to the enemy on land, on the sea, and in the air, it is the responsibility of each one of us to see that the pace which they have set towards a victorious goal can be maintained and accelerated."

"Those who have gone from us must be given every facility and every aid within our power. We therefore exhort every individual to support the 'Speed the Victory' War Loan to the fullest possible extent, ever remembering that the speedy return of our menfolk to peaceful avocations depends on the weight of arms with which we can now equip them."

"To invest in the Fifth Victory Loan is to invest in a peaceful future."

See how easy it is to buy a VICTORY BOND

The Victory Loan salesman will explain all the details about buying Victory Bonds. First, you can buy a Victory Bond out of your savings. Then, you can also buy a second bond out of your future earnings, on the instalment plan. These bonds pay you interest each half year.

It is a sound plan to lay aside money regularly for the future. Victory Bonds help to bring security and happiness for the days to come.

When the Victory Loan salesman comes to your door—be ready to help SPEED THE VICTORY

On four previous occasions Canadians have all worked together to put Canada's four Victory Loans over the top. Last Spring, two and a half million folks from factories, farms and mines, from the Armed Services, offices and homes, came forward and loaned their savings and their earnings to help win the war.

Today, as Winston Churchill has said, the war "is perhaps entering for us British and Americans upon its most severe and costly stage". Today Canada has more forces in the field. Today production from our factories, shipyards, mines and farms is on a scale many times greater than ever before. So Canada asks her people to support the greatest Victory Loan of all.

5,200,000 Canadians are now earning money throughout the Dominion. Each and every loyal Canadian is asked to do his or her part. Teamwork is needed for quick and complete victory. Let us all work together to make this loan a success—to Speed the Victory.
